

Assembly & Installation Instructions

PREPARATION before INSTALLATION:

1. If an existing fixture is being replaced, remove it and note to which wire in the outlet box the original fixture was attached.
2. Before discarding the carton, double-check the packaging to make sure all parts have been found.
3. This fixture was designed to be mounted on an octagon outlet box. The box must be securely mounted to the structure of the building.

IMPORTANT:

1. **WARNING** - Disconnect power before relamping or wiring the fixture. Turn off the entire electrical circuit to which the lighting fixture is attached.
2. Installation and maintenance of this fixture should be completed by a licensed electrician.
3. Failure to install the fixture correctly could result in serious injury or death.
4. Read all instructions before starting installation.

INSTALLATION STEPS:

1. Secure the threaded tube tightly to the light fixture.
2. Place the slot in the flat iron onto one end of the threaded tube, then use a wrench to tighten the nut.
3. Fasten the flat iron to the light fixture with screws.
4. Tighten the flat iron with the nut, then fasten the suspension ring to the threaded extension rod, ensuring it is aligned parallel to the flat iron.
5. Loosen the buckle to adjust the hanging chain and the wire to achieve the desired length, then thread the wire through the suspension chain, hang the buckle at one end of the suspension chain on the suspension ring of the ceiling plate, then hang the buckle at the other end of the suspension chain on the suspension ring of the fixture frame.
6. Secure the mounting bracket to a U.S.-standard junction box with mounting screws.
7. Connect the wires using wire connectors as follows:
Connect the POSITIVE wire of the main wire to the LIVE wire.
Connect the NEGATIVE wire to the NEUTRAL wire.
Secure the fixture GROUND wire and external ground wire.
Note: Pay attention that the bare wire can not be exposed to prevent leakage of electricity.
8. Secure the ceiling plate to the mounting bracket with nuts.
9. Install the bulb (NOT included) onto the light socket as indicated.
10. Insert the curved glass sheets and rectangular glass sheets into the corresponding slots on the light fixture from top to bottom.
11. Turn on the light to test for proper operation.
