If the holes and screws are not aligned, it is normal. To partially tighten the screws instead of tightening them 100%, first partially tighten the two diagonal screws, then partially tighten the remaining two. Wait until all screws are screwed in to some depth, and then tighten all screws 100%.

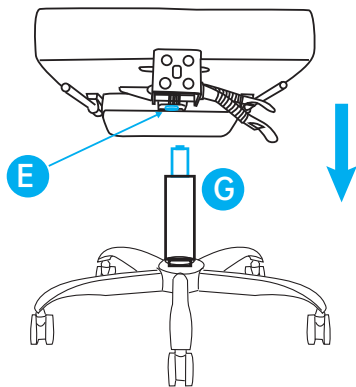

Any questions about the product, please contact pzdosupport@163.com

Submi

Welcome to **Submi** and we will regularly give away new products for free for active members to experience.

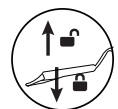

If you are interested.

Check all parts for missing parts or other quality issues before installing, please contact pzdosupport@163.com first if any questions.

Backrest Tilt

- To adjust the tilt angle of the backrest, lift the lever upward, then lean your body backward to the desired angle and press the lever downward to lock the seat angle.

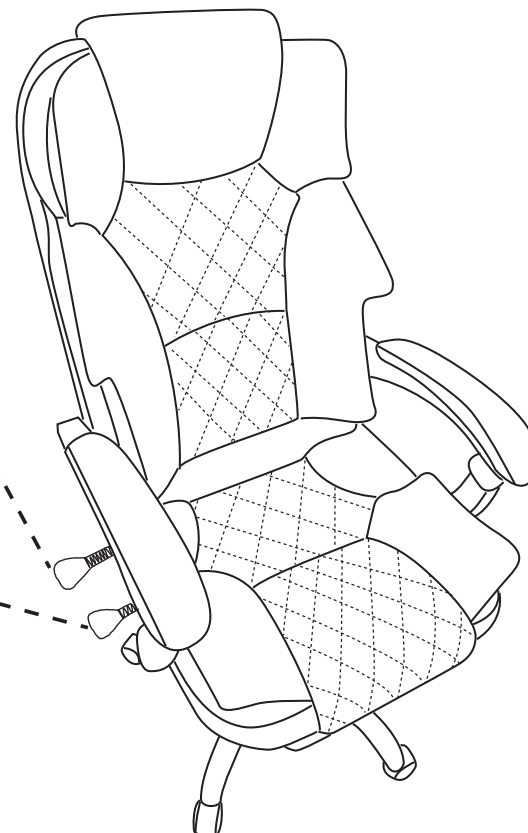

Seat Height Adjustment

- To increase the chair height, please pull the lever upward while lifting your body slightly off the seat. Release the lever to lock the seat height.

- To lower the chair height, please pull the lever upward while sitting fully into the chair. Release the lever to lock the seat height.

Troubleshooting

1. Q: Why does the chair make noise?

A: The chair screws are not installed well. Please check and tighten them one by one. If the noise still exists, please contact the after-sales (pzdosupport@163.com).

2. Q: **There are scratches on the leather part when the chair arrives?**

A: During a long-term transportation, other parts may be pressed into the leather part, which may causes scratches or breakage. Please contacting the after-sales with your order number and photos, we will send you a replacement.

3. Q: **Finding accessories missing when opening the package?**

A: Please contact after-sales (pzdosupport@163.com) for a replacement.

Safety Matters

- * Do not pull the handle before installation completed may lead to potential risk!
- * Incorrect assembly can result in severe personal injury and property damage.
- * Do not tilt chair or lean over the sides – always ensure all casters are firmly placed on a level surface.
- * This is not a toy! Please don't let the child play with it!
- * Do not sit on or lean over the arms, which would cause damage to the chair and lead to danger.
- * Always use the chair on a flat, stable surface to prevent injury.
- * Do not stand on chair and use it as a ladder or stair .
- * If the product is irreparable please dispose of the product. Using a damaged product may lead to personal injury.
- * Keep your hands away from the tilt mechanism in case of crush injury.
- * Do not use items with sharp or hook to scratch the chair.
- * Keep the instructions manual for future reference.
- * Clean, check and tighten all parts regularly.
