

Installation Guide

The size of this sofa is relatively long. In order to easily get in and out of the elevator and up and down the stairs we adopt the combined design. In the middle of the bottom of the sofa, there is a metal buckle for connecting and fixing.

EASY TO OPERATE

Turn the sofa up to expose the bottom. Then fasten the metal connection buckles at the bottom together. The operation is easy and the connection can be separated immediately. It is recommended to be completed by two people.
