

## Installation step

Dear buyers: Thank you for buying this product. Please read the instructions carefully before using.

1. The hanging board is fixed in the designated position of the wall.
2. Turn off the power. After checking that there is no error, connect the lamp head and the main power line.
3. Fix the lamp chassis on the hanging plate, and then fix it firmly with screws.
4. After making sure that the installation is correct, the light source can be installed before the test is switched on.
