# CLEARMAX<sup>®</sup>

PROTECTIVE GLASS COATING

## Benefits

Water repellent coating resists hard water stains and deposits.

Provides protection against harsh build-up

Considerably less time cleaning your glass

## Precautions

Avoid using abrasive cleaners, scouring powders or pads on your glass.

Do not use highly acidic or alkaline cleaning products to avoid damage to the glass surface

Keep brushes, razors or any other sharp objects away from the glass to help avoid scratches or other damage.

## Maintenance

Keep your ClearMax<sup>®</sup> coated glass looking like new by using a soft non-abrasive cloth or squeegee to wipe away excess water after each use. It is also important to keep the shower area well-ventilated to help reduce the chance of mildew.
