

# Assembly Instructions

## Swing Seat

### SAFETY INSTRUCTION

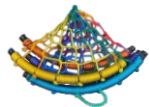

The safety of your children is our primary concern!

- Read the instruction manual carefully before assembling or using the swing. Keep this manual for future reference.
- The swing seat is ONLY for domestic use, not for public use.
- Children MUST NOT use this swing seat until the installation is complete.
- Not suitable for children under 3 years old.
- Children must be under supervision when they contact or use the product to prevent the risk of falling or the strangulation of long ropes.
- Periodically check and maintain the swing seat, and ensure that all hardware is in good condition.
- **The recommend height from the ground to the swing seat is 20in (50cm)**

### CARE AND MAINTENANCE

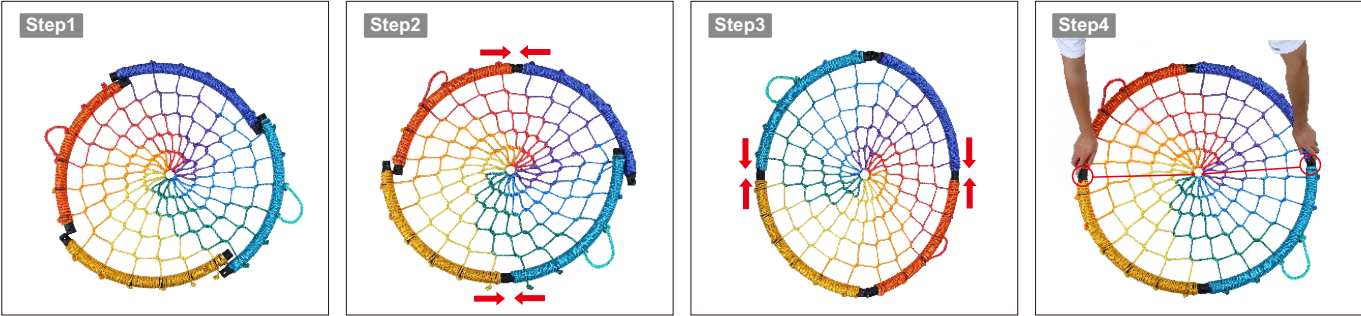

- Remember to check the following points before using the swing again when it is not in use for a longer period (Especially at the beginning of a new season):
- Lubricate all metal parts. Double check bolt coverings, sharp edges, and corners.
- Check all moving parts including swing seat, ropes and chains for wear, rust, or other deterioration.
- Do not leave the swing exposed to the weather during long periods of rain and sun.
- Always replace defective parts with original spares.

### PARTS LIST

ITEM NAME	IMAGE	QUANTITY	ITEM NAME	IMAGE	QUANTITY
SWING SEAT		1PC	SPANNER		1PC
SUSPENSION ROPES+NUT+WASHER		2PCS	TREE STRAP		2PCS
CARABINER		2PCS	SWIVEL		1PC
NUT CAP		4PCS			

### ASSEMBLY INSTRUCTION

- Step 1:** Place the swing seat on the ground, and keep four tubes flat.
- Step 2:** Joint two adjacent tubes together, and we will get two semi-circles.
- Step 3:** Hold the two semi-circles and align the tube orifices to each other.
- Step 4&5:** Push and press down the tubes until connected.

- Step 6:** Align the two holes, then insert the bolt into the holes.
- Step 7:** Put the washer and nut cap onto the bolt and tighten it. Make sure all the screws are tightened for your safety. (For a tight screw, use an open-end wrench.)
- Step 8:** Assembly finished.
