CLARKE & CLARKE

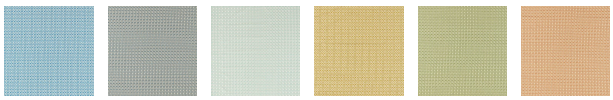

GIVERNY

FABRIC

MINERAL

F1735/03

Other Colourways

Paying homage to one of the most prolific watercolour artists of all time, Giverny was the setting of Claude Monet's Garden. This beautiful design comes to light in six modern colourways. Depicting a waterlily style flower to create an Arts & Crafts style leaf formation, making for the perfect colour companion to the collection. Suitable for upholstery and drapes.
