

# MQ5000 Vario: Maximum Control. Multiple Possibilities.

One hand design – simply adjust the speed wheel with your thumb. With 21 different speeds + turbo to choose from, precise speed setting guarantees precision.

Ultra-hard stainless steel blades and a unique bell-shaped blending shaft reduce suction and draw food inward for finer, smoother blending.

The unique floral bell shape and the position of the blades inside the bell virtually eliminate splashing, making cleanup easy.

With the versatile EasyClick system, you can quickly change attachments to blend, chop, whisk, mash, crush, and purée effortlessly.
