

Odie Floor Clock 615114

Exquisitely designed with careful attention to detail, this eye-catching metal grandfather clock is destined to be a forever timepiece. No matter where in the home or workplace you place it, it serves as the focal point of the space. Its unique configuration, clean lines, and avant-garde stylings set it apart from other clocks.

Artful Renderings: An industrial feel brings to life this artfully-designed grandfather clock finished in aged silver. Its shape is designed to replicate a sculpture, contributing to its visionary design. There's a sense of futuristic appeal here, what with the clean, undulating curves and smoothly machined metal.

Timely Details: More than just a work of art, this metal clock offers endless functionality thanks to its northern dial. The component is finished in machined steel with a blackened tone and offers suspended hour markers and a Roman numeral at the 12 position. Finished in silver, it stands starkly against the backdrop, as do the matching aged silver hour and minute hands. Completing the design is a ball pendulum finished in charcoal black that swings through purposeful elliptical openings on the sides.

Quartz Movement: Quartz movement requires one AA and two C batteries.

Howard Miller: Founded in 1926 and still family-owned in its third generation, Howard Miller is the world's leading clock company and a respected brand name in fine specialty furnishings such as curio cabinets, wine & bar furnishings, custom storage cabinets, and SmartMoves® adjustable height desks.
