

INSTALLATION INSTRUCTION

DeerValley®

Bathroom Intelligent Medicine Cabinet

- Please read these instructions carefully to familiarize yourself with the required tools, materials, and installation sequences. Follow the sections that pertain to your particular installation. This will help you avoid costly mistakes. In addition to proper installation, read all operating and safety instructions.
- These instructions contain important care, cleaning, and warranty information.
- Before installation, carefully inspect the new fixture for any signs of damage.

 **WARNING: Risk of injury or product damage.** Be careful when opening the door to avoid pinching fingers.

 **WARNING:** Do not use acidic or alkaline cleaners or alcohol to clean the surface. Use a dampened cloth to clean.

 **CAUTION: Risk of electric shock.** Electrical wiring may need to be relocated.

Grounding Instructions:

This product should be grounded. In the event of an electrical short circuit, grounding reduces the risk of electric shock by providing an escape wire for the electric current.

 **WARNING: Risk of electric shock.** Improper use of the grounding plug can result in a risk of electric shock.

- If repair or replacement is required, it must be completed by qualified maintenance personnel.
- This product is equipped with specific wires from the factory. If the product is used together with other products, consideration should be given to wiring issues, and connections should be made by qualified service personnel.

Double Touch Switch

Short press: Defogging/Bluetooth signal on or off. The backlight of the button is white when the defogging/Bluetooth signal is turned on, and blue when it is turned off. The defogging/Bluetooth function will automatically turn off after 60 minutes of activation, and the button backlight will turn white. If the user still needs to use the defogging function, it must be manually turned on again.

Light Control: To turn the light on or off, touch the switch on the bathroom mirror with your finger (tap). The light will change color with each tap. Touch the switch on the bathroom mirror with your finger for more than 5 seconds. The light will change luminance.

ELECTRICAL SAFETY INSTRUCTIONS

All connections must be installed by a licensed electrician in accordance with current building codes. Consult a qualified electrician.

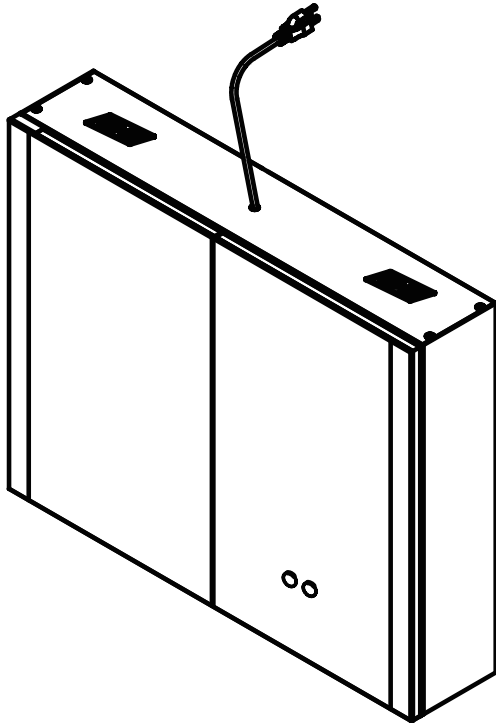

INSTALLATION CARE & SAFETY

Wear suitable eye protection when drilling. Take care when using power tools. Beware of hidden cables or pipes. Take care when drilling on tiled surfaces to prevent the drill from slipping. Applying a piece of masking tape to the wall before marking out the fixing holes will help stop the drill from wandering.

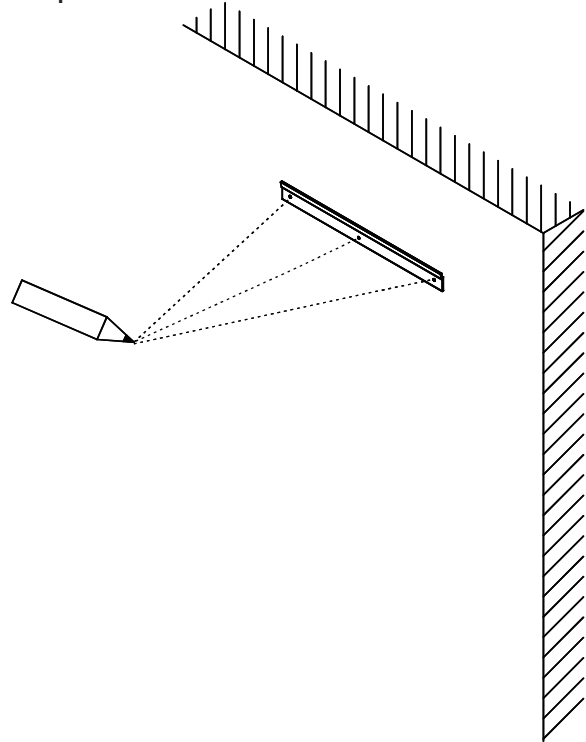

IMPORTANT

DO NOT strike glass components with hard or pointed items. DO NOT place very hot or very cold items against or in close proximity to glass surfaces unless an adequately thick insulation material is used to prevent such items from coming in contact with the glass. If the glass becomes chipped or broken, replace it immediately.

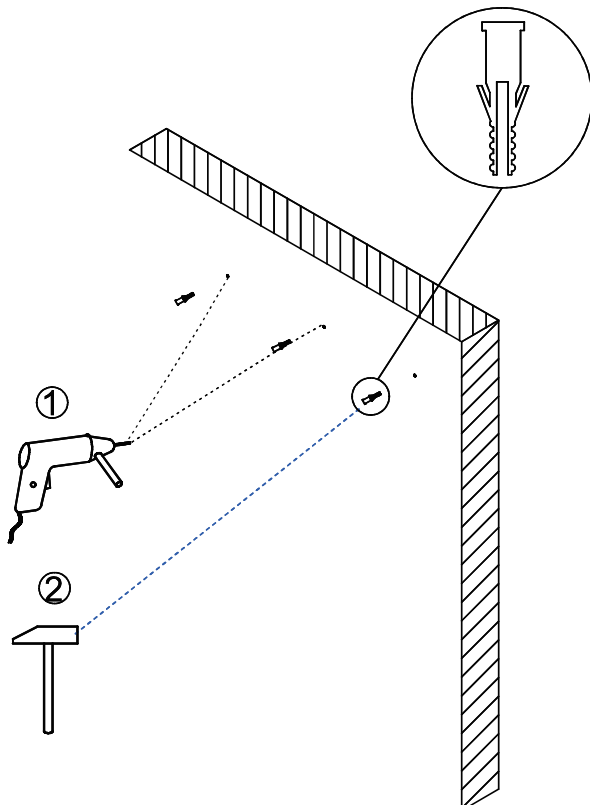

1. Remove the product from the packaging and take out the hanging strip.

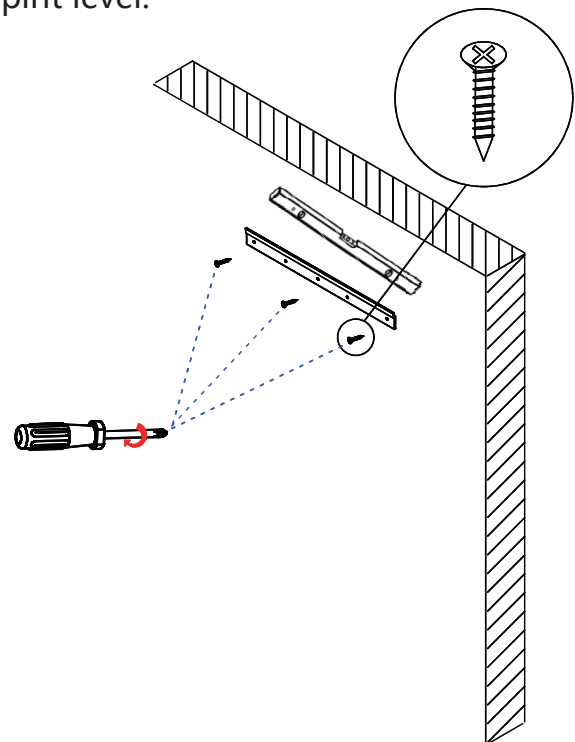

2. Align the hanging strip with the desired location on the wall and mark the positions of the holes.

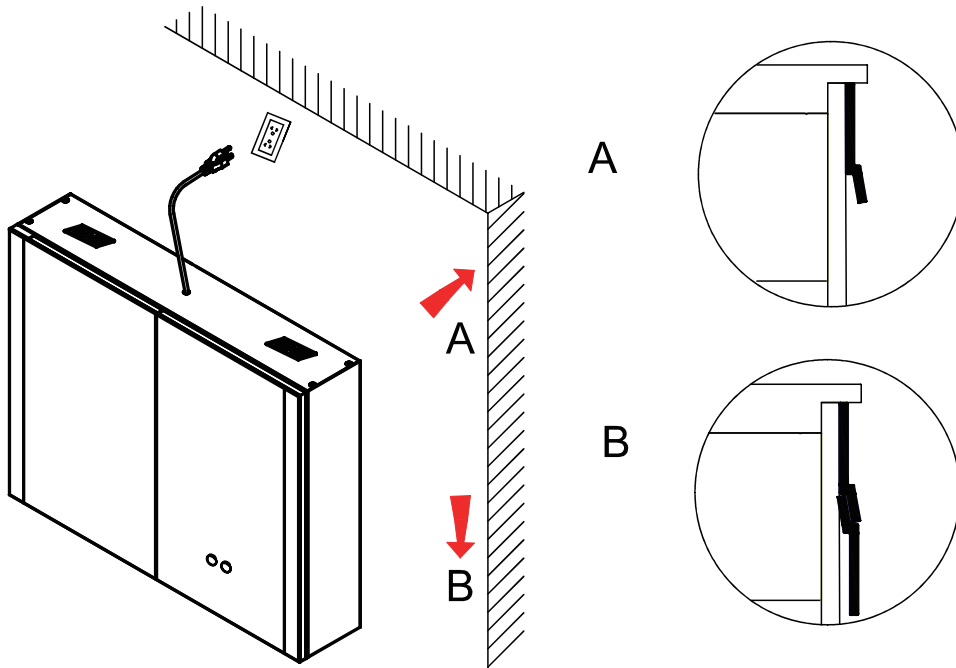

3. Drill the required holes and insert wall plugs.

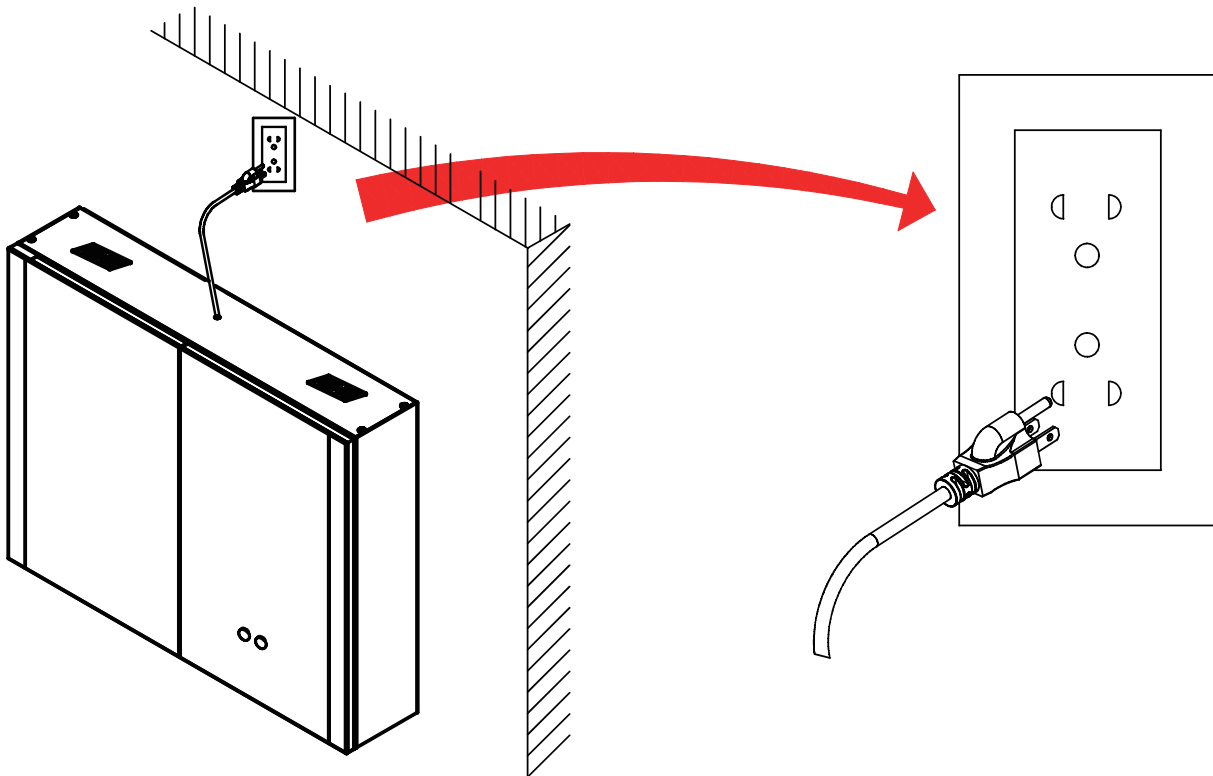

4. Screw the bracket to the wall using the screws, and adjust it with a spirit level.

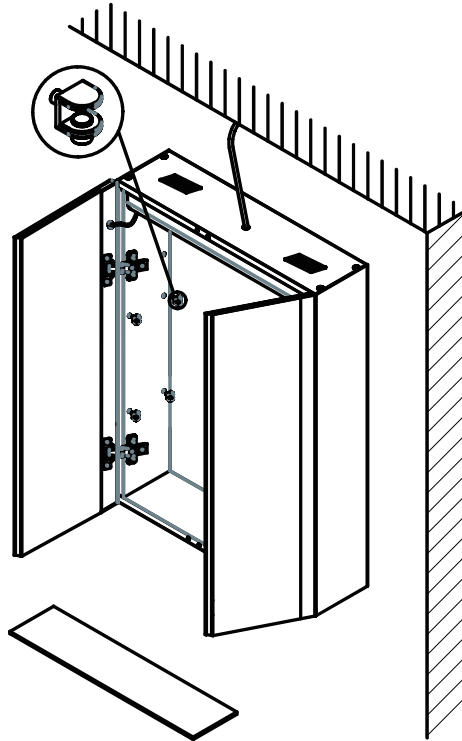

5. Hang the cabinet on the wall bracket. Ensure the claws on the cabinet hangers are securely located on the wall bracket. The position of the cabinet can be adjusted approximately 0.39in to the left or right. Note that due to the large size, two people are needed to install it simultaneously.

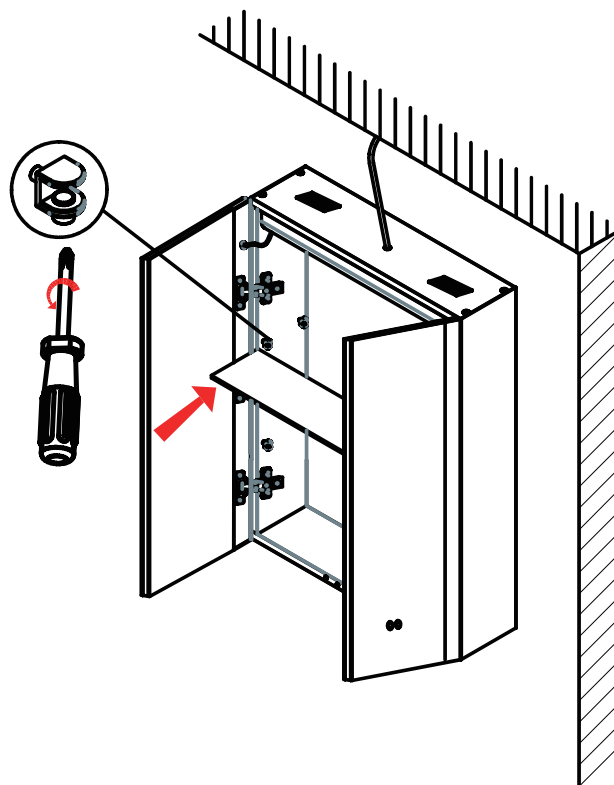

6. After hanging it up, plug in the power supply (pay attention to electrical safety).

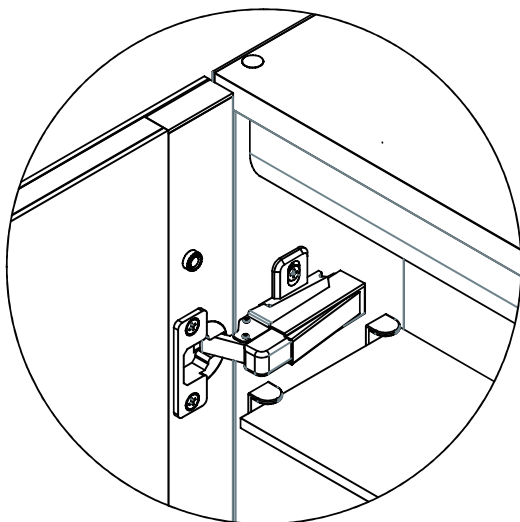

7. Take out the glass clips and laminated tempered glass from the packaging accessories. Install the glass clips on both sides.

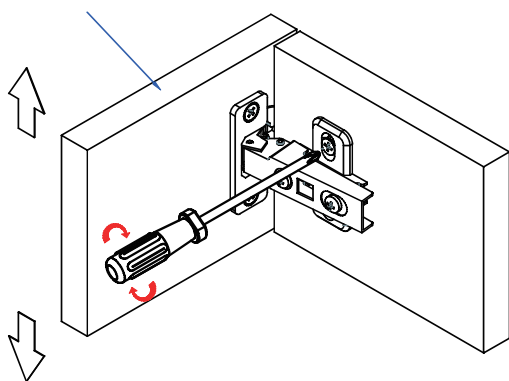

8. After installing the laminated glass, adjust its position to center it. Tighten the glass clips with a screwdriver to secure the laminated glass.

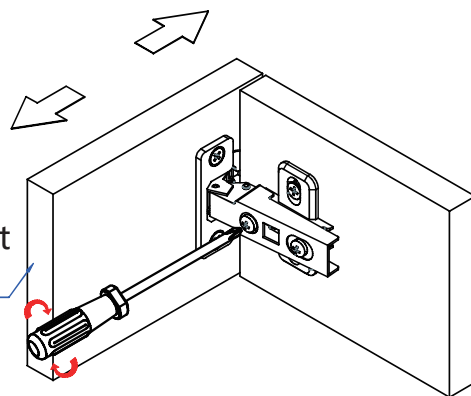

9. Adjust the cabinet door.
