#	Picture	Description	Quantity
A		Headboard	1
B		Footboard	1
C		Siderail	2
D		Middle rail	1
E		Leg	4
F		Slat Frame	15
G		Bolt – M6 x 10mm	4
H		Allen Key – M5	1
I		Bolt – M8 x 40mm	7
J		Hex Nut	4
K		Flat Washer	7
L		Allen Key – M4	1
M		Spanner – M13	1
N		Screw – M4 x 30mm	32

- **Step 1:** Make sure it's on a safe surface where the bedframe cannot be scratched and or damaged and close enough to the location.
- **Step 2:** Locate the headboard and the two side rails, as these will be the first to be attached.
- **Step 3:** Using the Spanner and Allen Key you will screw in the headboard and the side rails using (2 Hex Nuts; 2 Flat Washers; 2 Bolt – M8 x 40mm) for each side rail. First place the bolt on the interior of the frame using the Allen Key following by screwing in the nut and washer on the exterior to tighten the bolts with the spanner.
  - i. Repeat for each sideboard and make sure it's firmly attached to the headboard.

- **Step 4:** Locate the footboard as this will be assembled onto the preassembled head board and rails.
- **Step 5:** Using the Allen Key you will screw in the footboard and the side rails using (2 Bolt – M6 x 10mm). First place the bolt on the interior of the frame using the Allen Key screw in the bolts until firmly attached.
  - i. Repeat for each sideboard and make sure it's firmly attached to the footboard.

- **Step 6:** Proceed to locate the two middle rails and the six legs.
- **Step 7:** Proceed to attach the 3 legs to each middle rail using the Allen Key and (3 Bolt – M8 x 40mm; 3 Flat Washers).
  - Repeat for each middle rail and make sure it's firmly attached to the legs.

- **Step 8:** Proceed to attach now the preassembled middle rails to the bedframe connecting both the headboard and the footboard to each end of the middle rail as seen.
- **Step 9:** Using the screwdriver and (1 Screw – M4 x 30mm).
  - Repeat for each middle rail connection to the headboard and footboard and make sure it's firmly attached to both.

- **Step 10:** Now that your bedframe is firmly on the floor, we can proceed to install the slats to your new bedframe.
- **Step 11:** Using the screwdriver and (1 Screw – M4 x 30mm).
  - Repeat for each slat connection to the side rails make sure it's firmly attached to both side rails.

- **Step 12:** Test that the bedframe is firmly on the ground and the bedframe does not wiggle.
- **Step 11:** Enjoy your new bedframe.
