

COMBATING THE ENEMIES OF

WINE

PERLICK COLUMN AND UNDERCOUNTER
WINE RESERVES FOR THE HOME

Perlick®

THE ONLY THING

MORE PARTICULAR

THAN A WINE
CONNOISSEUR IS
THE WINE ITSELF.

There is a reason it's called a wine collection. Each bottle is carefully curated, specially chosen by you for its flavor profile, a special memory, or as a reminder of that incredible trip to Napa. No two wine collections are the same, just like all wine refrigerators are not created equal.

Now, you can enjoy the same commercial-grade performance that the high-end restaurants we serve demand — in your own home. Combined with the high-style you desire, a Perlick Wine Reserves offer unparalleled preservation and presentation.

WINE REFRIGERATION THAT COMBATS THE

ENEMIES OF WINE

ENEMY - TEMPERATURE

Temperature swings can be detrimental to wine. Exposure to heat can cause wine to push the cork out of the bottle, while extreme cold paralyzes wine and ruins its natural development and taste.

THE SOLUTION? HIGH-PERFORMANCE REFRIGERATION

Perlick's proprietary RAPIDcool forced-air refrigeration system circulates cold air throughout the cabinet, providing industry-leading temperature uniformity within 1° of setpoint.

ENEMY - VIBRATION AND OXYGEN

Wine continues to develop long after you bring it home to enjoy. Frequent disturbances, such as vibration, agitate wine and interrupts the maturation process. Bottles must also remain sealed to keep oxygen out.

THE SOLUTION? UNPARALLELED CONSTRUCTION

Foamed-in-place stainless steel walls provide a solid foundation for the reserve, while soft-coat full-extension shelves gently cradle each bottle. Wine is stored horizontally to keep corks from drying out and letting oxygen seep in.

Wine is complex. Whether a crisp white or a robust red, all wine is perishable and requires proper conditions to protect it from spoilage. To enjoy wine at its peak, Perlick wine reserves are designed to combat the common enemies of wine.

ENEMY - LIGHT

Exposure to light will prematurely age and potentially damage wine. Ultraviolet light causes wine to become cloudy and give off strong odors, negatively affecting the wine's flavor.

THE SOLUTION? PREMIUM GLASS

Perlick specifies the highest quality glass specially manufactured to protect interiors and increase overall strength. Multi-pane LowE glass is coated with UV-resistant protection to limit the amount of ultraviolet light entering the reserve.

ENEMY - ODOR

Strong odors - especially musty or moldy odors and dry rot - can affect the flavor of wine. It is recommended that wine is stored in an odorless, non-aromatic environment.

THE SOLUTION? STAINLESS STEEL

All Perlick column and undercounter wine reserves feature Perlick's signature stainless steel interiors. Stainless steel is sanitary, resisting odors and stains unlike plastic and wood.

INTRODUCING THE ALL-NEW

PERLICK COLLECTION

BECAUSE NOTHING
PROTECTS,
PRESERVES
AND PRESENTS A
TREASURED WINE
COLLECTION
LIKE A PERLICK.

24" PERLICK COLLECTION COLUMN WINE RESERVES

Standing at a statuesque 84" tall, the 24" Perlick Collection Column Wine Reserve offers flexible storage for up to 94 bottles of wine. Built to exacting commercial standards, this product is trusted by fine restaurants to store and display wine at the front-of-the-house. Designed with premium features such as the PerliIQ™ touch-screen control, precision cooling and smart humidity, nothing protects, preserves and presents a treasured wine collection like a Perlick.

VIBRANT LED THEATRE LIGHTING

Vibrant blue or white LED roll-on theatre lighting adjusts for display or storage, and emits no UV light to protect against oxidation and degradation.

HUMIDITY CONTROL

Perlick's advanced technology monitors humidity levels in the reserve, and if necessary, pushes additional moisture into the compartment to maintain 60-70% relative humidity. This preserves corks and prevents oxidation.

CONVERTIBLE DISPLAY SHELF

Display six prized bottles of wine, with additional storage for four dessert bottles. Lay the display shelf flat for long-term cellaring and increased storage capacity for 11 bottles. Like all shelves in the reserve, shelves are soft-coat soft-close glide-out to eliminate vibration.

**24" PERLICK COLLECTION COLUMN
WINE RESERVE - SINGLE-ZONE**

94 Bottle capacity

Dimensions 23-3/4"W x 24"D x 83-11/16"H

Temperature 40° - 68°F (4.4° - 20°C)

Key Features

- Sleek PerliQ™ touch-screen control panel
- Triple-pane bronzed glass
- Smart humidity and natural Carbon air filtration
- Vibrant blue and white LED theatre lighting
- Comes ready to accept custom panel and hardware

**24" PERLICK COLLECTION COLUMN
WINE RESERVE - DUAL-ZONE**

86 Bottle capacity- 46 in top zone, 40 in bottom zone

Dimensions 23-3/4"W x 24"D x 83-11/16"H

Temperature 40° - 68°F (4.4° - 20°C)

Key Features

- Features two independently-controlled temperature zones
- Sleek PerliQ™ touch-screen control panel
- Triple-pane bronzed glass
- Smart humidity and natural Carbon air filtration
- Vibrant blue and white LED theatre lighting
- Comes ready to accept custom panel and hardware

PROFESSIONAL-GRADE FOR THE HOME

SIGNATURE SERIES

ENJOY EXPERTLY
CRAFTED STORAGE
FOR 20-80 BOTTLES
— WITH HIGH STYLE

PERLICK SIGNATURE SERIES

UNDERCOUNTER WINE RESERVES

Available in 15-, 24- and 48-inch widths, Perlick Signature Series Wine Reserves offer storage for 20-80 bottles of wine. As Perlick's premier portfolio of undercounter refrigeration, the Signature Series offers premium features to expertly store your wine with both style and precision.
