TITLE

***Silver Edition 235 Gallon Fish Tank Premium **Tempered Ultra Clear Glass** Complete Aquarium Setup***

Standard Price: \$4,688

**Key Product Features:**

1: The matte electrophoretic aluminum alloy metal frame shows noble quality, which will make you love it and want to touch it.

2: Perfect for any personal aquarium keeper, our tanks are designed to house & breed marine life, coral, aquatic plants, and aquascaping. Tank: 60.2 (L) x 23.6 (W) x 31.5(H). inches for a water capacity of 195 Gallons, Tempered Glass with a light transmittance < 91.5%, Led Light Cover, with tri-color LED lights and mounting brackets, Aluminum frame, resistant to scratches and deformation.

3: The tank is made of high-quality low-iron tempered ultra-white transparent glass ("crystal glass"), with a light transmittance for a clearer-looking tank that is more resistant to scratches and fingerprints. Robust ~0.315 inches thick glass paneling allows the tank to easily withstand the impact of everyday use as well as increase acid and alkali resilience. Each panel is bonded by a German high-endurance biophilic silica gel which can resist saltwater erosion for up to 20 years.

4: The premium aluminum frame prevents deformation and fading, The cabinet frame is also resistant to tension and torque deformation which can be caused by heavy loads as well as being corrosion resistant. The cabinet houses

the sump filtration system, which will include all pieces needed for installation. Cabinet: 60.2 (L) x 23.6 (W) x 31.5(H) inches, Aluminum frame, resistant to scratches and deformation, A built-in sump-filtration system.

5: The sump filtration system includes a wet-dry filtration system as well as designated filter media dividers. This will allow for a modular approach when handling the filter media of your choice. Sump Filtration System: 53.9 (L) x 13 (W) x 12.6 (H) inches for a water capacity of 40 Gallons, 1188 GPH submersible pump, Wet-Dry filtration system.

## Includes:

- Tank
  - 60.2 (L) x 23.6 (W) x 31.5(H). inches for a water capacity of 195 Gallons
  - Tempered Glass with a light transmittance < 91.5%
  - Led Light Cover, with 2 tri-color LED lights and mounting brackets
  - Aluminum frame, resistant to scratches and deformation
- Cabinet
  - 60.2 (L) x 23.6 (W) x 31.5(H) inches
  - Aluminum frame, resistant to scratches and deformation
  - A built-in sump-filtration system
- Sump Filtration System
  - 53.9 (L) x 13 (W) x 12.6 (H) inches for a water capacity of 40 Gallons
  - 1188 GPH submersible pump
  - Wet-Dry filtration system
  - Designated filter media divider for modular use

## Shipping:
