

Instructions

NOTE :

1. Please Check whether the accessories are missing in time after unpacking. (Bulbs not included)
2. We offer 12 months guarantee. If you find any damaged or missing parts in transit, please feel free to contact us by email , we will solve it ASAP!

- Tips:
1. Hold the heat gun about 3~6 inches away from the tubing, and keep it moving back and forth.
 2. Continue heating the tubing until it is tightly secured to the wire.

01

- 02** Screw the Mounting Bracket to the ceiling or ceiling box. (There are many gaps, you can screw it to the ceiling)

If you install the Mounting Bracket into the electrical box, please use T6 to fix it instead of T5

- 03** Screw the ceiling plate to the ceiling. Fixture wires should be connected to ceiling wires by color, black wire to be attached to the black wire, white to white and ground wire to ground wire.

For your safety, you should use wire connector T1 or T2 as you like, if you choose connector T1, you need to use electric tape for it.

04

Fix the light to the ceiling
