Installation Diagram

Installation Instructions
1. Power supply: AC 110-240V, 50Hz/60Hz
2. Instructions for use:
- Installation and maintenance must be carried out by qualified technicians.
- Please turn off the power before replacing the light bulb.
3. The shipment does not include light bulbs, you need to purchase E26/E27light bulbs

Precautions
1. Please wear cotton gloves when installing the lamp body.
2. The lampshade is fragile - handle with care to avoid damage.
3. Always disconnect the power supply before installation. Ensure safety first, then install according to the provided instructions.
