Product Description: Grand in its simplicity and celebration of simple, pure and linear forms, the Miramar Jackson California King Poster Bed with Tall Posts & Canopy takes a global view of design and offers a respite of exotic elegance. The headboard is vertically-channeled and upholstered in Cleary Cement, a soft neutral contrasting with the rustic White Oak and Pine Knotty Oak Veneer frame with a smoky Arabica finish. Includes headboard, footboard, rails tall posts and canopy frame.

Collection Features: Miramar truly takes a world view of design with each of its specific lifestyles, allowing Hooker Furniture to address a wide range of design styles. While each group stands on its own, pieces from Aventura, Point Reyes and Carmel can also seamlessly blend together to create a truly, one-of-a-kind, curated look. Every detail, down to the custom-designed hardware, has been developed perfectly to deliver a unique experience, inspired by global designs.

Status: Active

Finish: 6202-DKW Rustic oak with a smoky Arabica finish

Features: California King size
Includes headboard, footboard, rails and tall posts
Fabric upholstered headboard

Material: White Oak and Pine Knotty Oak Veneers with Fabric

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
