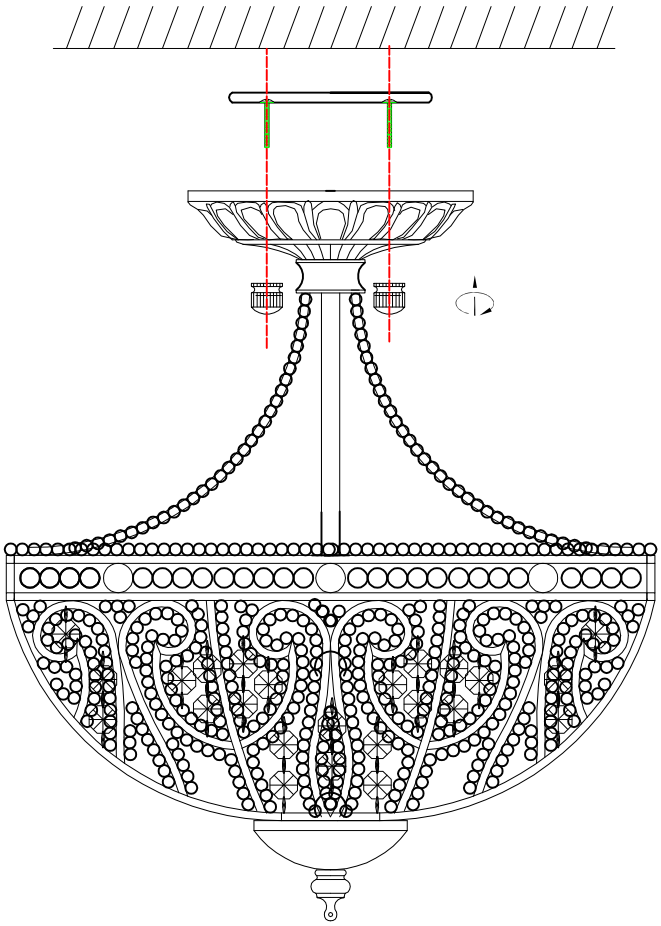
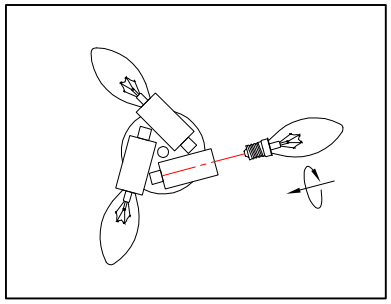
Lamp installation instructions





Installation instructions

1. Please wear gloves for installation. The customer must install according to the installation instructions of the company.
2. Lamps and lanterns shall not be installed on the ceiling with wet gray water.
3. When cleaning lamps, cut off the power supply first, and choose a non corrosive cleaning method.
4. Lamps shall not be used as acid or other chemical solutions within a certain range of installation, otherwise serious damage will be caused to the electroplated
