Application

It can be used in kitchens, restaurants, convenience stores, dessert stores, snack bars, cafes, restaurants, food trucks, and food carts to make desserts such as crepes, or snacks such as Chinese pancakes, or to have a hearty egg and bacon breakfast. It is suitable for private use by professionals and DIY enthusiasts, but also for family reunions, clubs, parties, etc.

Notes

1. Installation and repair work of this machine should be completed by professionals.
2. Please keep it from flammable, explosive, and **toxic** materials to avoid fire.

3. Please regularly clean the stove surface and cut off the power before cleaning. Please use a hard nylon brush(not included) to brush first when the machine is still warm, and then use a rag or blow gun to remove the surface residue. Please do not clean this product with corrosive detergent, wire balls, iron products, and other metal cleaning tools.
4. Please do not burn it at high temperature for a long time, it is recommended that the temperature be adjusted to below 212°F when not in use. Brush the surface of the pot with cooking oil when the pot is usually open.
5. Due to the process problem, the tray may be a little trachoma, which is normal. Because the heat pipe was played with a layer of anti-rust oil, there may have smokes and odor for the first use, which is normal. After heating for a while, it will get better.
6. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
