INSTALLATION INSTRUCTION

Matters needing attention

Be sure to use the proper screws to avoid damaging the parts

Wrong screws can cause the plank to crack

The right screw is the right size

ASSEMBLY INSTRUCTION

Matters needing attention

- (1) When installing the screws in the installation step, the screws do not need to be tightened.
After this installation step is confirmed and the holes are aligned, then tighten all the screws.
- (2) If the screws are tightened during the installation process, it will cause problems such as misalignment of the screw holes and misalignment of the board in subsequent installations.
