CAUTIOUS

- **Daily cleaning of the pine chair frame:** Use a soft wet cloth to wipe the furniture along the grain of the wood to remove dust.A small amount of cleaning agent can be dipped on the soft cloth before cleaning. Avoid using soapy or clean water to wash directly, as this may make the furniture dull and even cause the wood to mold or distort.
- **Avoid direct sunlight:** Do not put pine furniture in front of the large south-facing glass window, long-term direct sunlight will make the furniture too dry, will also fade.
- **Avoid heat sources:** hot water cups,etc. can not be placed directly on the surface of pine furniture, which will leave traces that are not easy to remove Colored liquids, such as ink, should definitely be avoided on the table. By following these cleaning and maintenance tips, you can effectively protect pine furniture and extend its service life while maintaining its natural and beautiful appearance.
- **Treat the stain immediately:** Treat the stain immediately: As soon as you notice the stain, blot it with a clean cloth or paper towel and avoid wiping,as this may make the stain go deeper. For stubborn stains, spot cleaning can be done using a commercial cleaner designed for fabric or a homemade cleaning solution, (for example mixing dish washing liquid with warm water).
- **Placement**: Accent chair is a leisure sofa that brings a place to get more comfort while watching videos, playing games, reading books,or relaxin in front of the fireplace; Performs well in the living room, bedroom, balcony, porch, or other places you like.
