

Tiger Tower

read first REVIEW BEFORE ASSEMBLY

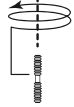

• **TOOLS:** Allen wrench is included. No other tools are necessary.

For assistance or replacement, please contact us

1 Assemble **SCRATCHING POSTS** to the **DAY BED & LOUNGING PLATFORM**. You will need these pieces:

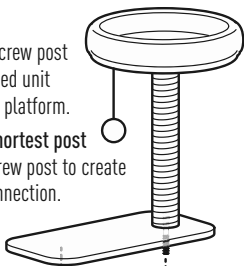

Twist a **middle-height post** with screw-end into the hole under the day bed to create a stable connection.

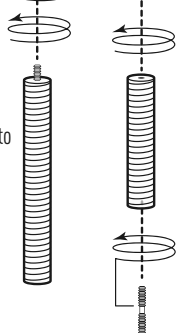

Twist the two-ended screw post into the bottom—up to where the screw thread stops.

Insert the screw post of the day bed unit through the platform.

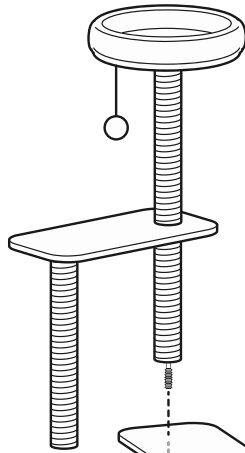

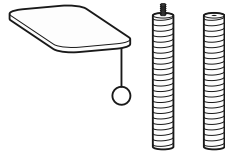

Twist the **shortest post** onto the screw post to create a stable connection.

Twist the **tallest post** into the platform.

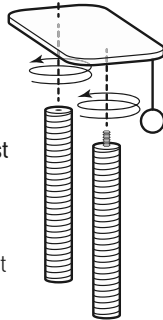

2 Assemble the **TOY PLATFORM** and lower **SCRATCHING POSTS**. You will need these pieces:

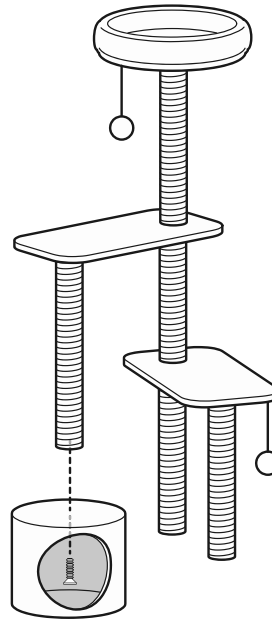

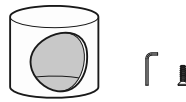

Insert the screw post of the **shortest post** through the toy platform.

Twist the **middle-height post** without screw-end onto the screw post.

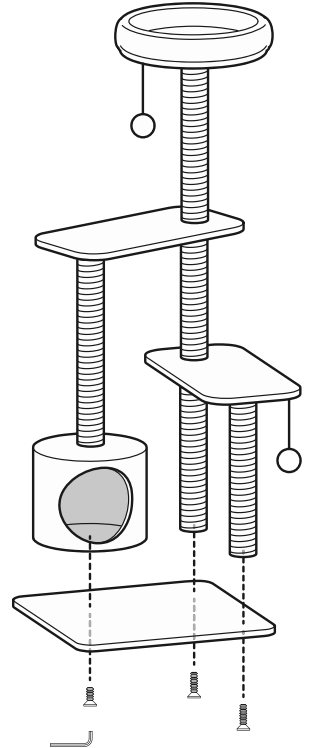

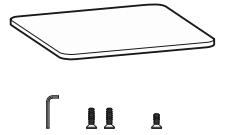

Twist the remaining post into the toy platform.

3 Attach the **HIDEAWAY**. You will need these pieces:

Attach the hideaway with the **long hex screw**.

4 To attach the assembled units to the **BASE**, you will need these pieces:

Add the assembled unit to the base.

Use the **short screw** for the hideaway.

Use the two **long screws** for the scratching posts.

Tighten securely to create stable connections.
