## How long will the battery last?

✓ A good AA alkaline battery will last over 12 months.

## Will this clock provide time around the world?

✓ The time is set manually. The clock may be set for any time around the world.

### Power Requirements

✓ 1 AA Alkaline battery for the clock

### Why do the hands spin?

- ✓ Hands may spin if the battery is underpowered or over powered.
- ✓ Use only Alkaline batteries in the clock.

### How do I set the time?

✓ Spin the wheel on the back of the movement to set the time.

## Where can I mount this clock?

Indoor: Mount the clock on a wall with the hanger on the back of the clock.

**Outdoor:** Choose a location with an overhang to protect the clock from the overhead sun or standing snow or rain. A shaded location will prevent inaccurate temperature readings.

Mount the clock on a wall with the hanging hole on the back of the clock. Be sure the battery cover is on snug.

# Can I adjust the Temperature?

✓ The Temperature is self-adjusting. Allow 24 hours to adjust.

# Is there a setting for Celsius?

✓ This clock reads temperature in Fahrenheit only.
