## CARE AND MAINTENANCE

Mattresses are constructed of heavy duty vinyl designed for optimum comfort when used at normal household temperatures.

### WARNING:

*Avoid extreme cold, as vinyl will become brittle. Do not overinflate. Do not use high pressure or compressed air inflation systems. Avoid sharp objects. Do not use hair dryer to inflate.*

### WARNING: FLAMMABLE

*VINYL IS FLAMMABLE. Do not locate bed near fire, fireplace or any other heat source, such as a space heater. Avoid placing bed over a heat emitting floor vent.*

PVC, the material used to make air mattresses, will naturally stretch and expand during use. After being inflated for several hours and/or having been slept on, the air mattress may lose some of its initial firmness and feel softer because the PVC has naturally expanded. This expansion is normal and not the result of a leak. To regain your desired firmness level, add air to the mattress using the pump that was provided with the mattress.

Clean only with mild soap and water. Harsh cleaners can damage materials. Use repair kit to patch any holes, tears or punctures. Store at room temperature only AFTER cleaned and dried. Do not store outdoors or in a garage.

## COVER CARE INSTRUCTIONS

The cover is machine washable. Do not dry clean. Do not use bleach, any bleach alternative, non-chlorine bleach or any bleach byproducts in the detergent.

## USES

Use the Cloud Supreme™ any time an extra temporary sleep surface is needed. The Cloud Supreme™ is intended for normal indoor use only. The Cloud Supreme™ is not intended to be used in place of your present everyday sleep surface.

**0-15 Months**

  - Provide at least a shoulder width space between mattress and walls, dressers or other vertical objects to avoid entrapment.
  - Always keep mattress fully inflated when in use.

See instructions for additional warnings.
