Notes

1. Please check the size carefully before ordering.
2. Place the scale on a hard, flat surface. Avoid using it on carpets or soft mats.
3. Please stand barefoot with your body straight and still, arms hanging naturally at your sides during measurement.
4. To protect the device, do not rinse it directly with water or wipe it with corrosive cleaning agents.
5. When using batteries, remove them if the scale will not be used for an extended period to prevent battery leakage and corrosion.
6. Please do not use in damp or splashed environments to prevent electrical short circuits.
7. When used by children, adult supervision is recommended for safety.
8. When connecting via Bluetooth, ensure the mobile app is open and the device is nearby.
9. Please do not exceed the maximum capacity of 440 pounds to avoid damaging the sensors.
10. When measuring height, do not touch or obstruct the ultrasonic probe at the top.
11. When moving the device, handle it gently to avoid severe vibrations or impacts.
12. When the device has batteries installed, it cannot be plugged in for use to prevent damage to the machine.
13. When measuring height, ensure all three aluminum tubes are fully assembled.
14. Please read the instruction manual and the safety tips on the back of the product carefully before use.
15. Please allow the slight color difference caused by the shooting light and a 1-3 cm error due to manual measurement, and make sure you do not mind before ordering.
