Refill water in **3** seconds
No watering for **30** days

Introducing a New and Exciting Concept for Simple and Healthy Plant Care!

EZ PlantCare ^ Program for Container Gardening

HomeOasis Self-Watering System

- Long Term Watering: planters designed to hold water in a reservoir for up to 30 days-so no worrying about plants on vacation!
- Patented Self-Watering Wicking System: provides continuous water wicking for even moisture to roots - prevents root rot.
- Water Window: allows for monitoring of water level.
- Fast water refill: in 3 seconds you can refill to the correct water level!
- Exclusive Designs: for repotting plants from grower's pots and long-lasting enjoyment!

Designed with a built-in reservoir to use a cotton self-wicking system to keep the moisture of the soil at the correct level.

1. Grower Planter
2. Self-Wicking Stand
3. Absorbent cotton
4. Water storage saucer
