

# Shower Seat Bench, Wall-Mounted Folding Stool Chair, Shower Stool for Inside Shower, Entryway Solid Wood Shoe Changing Stool for Kids Adults

## Description

Are you tired of squatting on the floor to put on your shoes? Our wall-mounted folding bench allows you to sit on the bench and put on your shoes before you go out. The wall-mounted folding design will only take up very little space. The walnut color and minimalist design can also decorate your home nicely. This is a bench that combines aesthetics and practicality.

## Key Features

**Wall-mounted:** This folding bench is wall-mounted and firmly fixed to the wall without any movement. This prevents the bench from moving while sitting causing you to slip and fall.

**Exquisite Design:** This folding bench is simple in design and comes in a very beautiful walnut color. It is elegant and modern and will match most home decor styles.

**Large Load Capacity:** This bench is made of thickened rubberwood support skeleton with a maximum load capacity of about 100kg, which can withstand the weight of most people or objects. It is safer to use.

**Saving Space:** This folding bench is wall-mounted and will not take up extra space for you. It is very thin when folded up, which can meet the needs of small households.

**Height Optional:** You can install the folding bench at the right height according to your height needs during installation.

**Fine Polishing:** The edges and surface of the bench are finely polished without burrs, making it smoother to the touch. This makes it safer and more comfortable for you to use.

**Interlaced Folding Design:** You can fold the bench up when not in use. The interlaced folding design makes the two pieces blend into one, which not only saves space but also has a great sense of design.

**Surface Painting Treatment:** The surface of this bench is evenly sprayed with odorless eco-friendly water-based paint, which not only makes the bench shinier but also has a waterproof, yellow-resistant effect. You can install it inside the bathroom.

**Easy to Install:** The installation of this item is very simple. You just need to choose a suitable wall for drawing lines and punching holes, and then twist the nails into it to complete the installation.

**Wide Applications:** This folding bench folds up so small that it can be installed behind doors, in bathrooms, next to shoe cabinets, and in a variety of other spaces. Installing it in the bathroom can enhance the well-being of the elderly and pregnant women.

## Details

**Smooth Edges and Surfaces:** The surfaces and edges of this bench are treated very smoothly, which not only looks very nice but also won't hurt your hands.

**Clear Texture:** This bench is made of high-quality rubberwood, which makes the surface of the

bench with the original clear and beautiful pattern, making this bench with vintage and elegant features.

## **Application**

This folding bench can be installed behind doors, in bathrooms, next to shoe cabinets, and in a variety of other spaces.
