Notices:

1)Please install the solar lamp to a position that the solar panels are fully exposed to direct sunlight.
2) Please keep the solar panel clean and won't be covered by dust, dirt, leaves, especially snow or frost in winter.
3)Please do not install the solar lamp close to or around lighting source of night, as it may affect the automatic activate function of the solar lights.
4)Dusk to Dawn: Once you switch on the solar light, it will charge under direct sunlight during daytime, automatically turn on as night comes, then off as the built-in light sensor detect lighting or dawn comes.
5)Charging the solar lights: The light must be switch ON before charging, or it won't charge under sunlight.
6)Charging efficiency may affected by bad weather like rainy, cloudy, etc., and the working time of the light will be shorten if it is not fully charged.
7)We suggest that you can switch on the light and put it under sunlight for one-day charging then check whether the light can work normally or not before installation.
