01/ SETTING UP YOUR MATTRESS

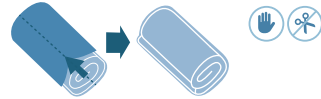

STEP 1:

Place the box on its side in the room and remove the bagged mattress.

STEP 2:

Remove the plastic bag from the mattress, being careful with scissors to avoid damaging the mattress.

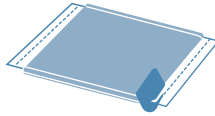

STEP 3:

Lay the compressed mattress on a clean, flat surface.

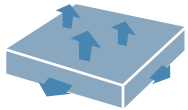

STEP 4:

Carefully cut the plastic bag along the edges with scissors. The mattress will begin to decompress immediately.

STEP 5:

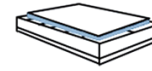

Allow the mattress to fully expand for 72 hours.

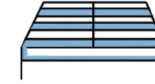

TIPS:

1. Remove from packaging within 72 hours of delivery to maximize memory foam expansion.
2. Allow the mattress to fully expand before adding bed linens.
3. New mattress may initially have a slight odor, this was sealed in plastic, it is completely harmless. Under normal use, it will dissipate on its own in a short time (from a few hours to a few days). This process can be accelerated if placed in a well-ventilated room or with a fan turned on.

07 / FREQUENTLY ASKED QUESTIONS

1. How long does it take for a mattress to fully expand?

Generally, the mattress takes 48–72 hours to fully expand. It may take longer to fully expand in lower room temperatures or if the mattress has been wrapped and rolled in a shipping box for a long time.

2. Do I need to take some time to adapt to my mattress?

Yes, your body may take some time to adapt to any new mattress, please give yourself at least 15 days to adapt to it.

3. It's chemical free?

Yes, our mattresses are made with premium CertiPUR–US certified foam and wrapped in an OEKO–TEX certified mattress cover, free of harmful chemicals. Each mattress is clinically tested and passes strict regulatory requirements. Because of this, we can sell our products with confidence.

4. Is there smell with the mattress?

You may notice a slight “new” smell when you first unpack your new mattress. The smell is completely harmless and will disappear in a short period of time. Giving your mattress several days to air out in a well-ventilated room if you are sensitive to it.

5. How do I clean my mattress cover?

The mattress cover is removable and machine washable. You can also spot clean it with a damp cloth and mild detergent, then let it air dry completely.

6. What is the sleeping firmness of this mattress?

This mattress has a medium–feel, but each person may experience it slightly differently. Our mattresses provide the perfect balance between comfort and support to help you relieve pressure and properly align your spine during sleep. A mattress that is too firm can cause tension in the body, and a mattress that is too soft can cause excessive sinking.

7. Will this mattress fit an adjustable bed frame?

Yes. Our mattresses are designed to be compatible with a variety of bed frames, whether you have a platform bed, traditional bed frame, or an adjustable base, this mattress will fit perfectly without having to replace your entire bed.

8. Will memory foam mattress make me hot?

All memory foam products retain heat. This mattress is infused with gel and is well ventilated to help prevent overheating, but it doesn't actively cool the bed. To keep the bed feeling cooler, we recommend adding a bamboo or tencel sheet, both of which have natural cooling properties.

9. Can I flip it over?

Yes, you can flip it over to get a different sleeping feel.

10. What if the rebound is insufficient?

Under normal circumstances, the mattress will fully rebound within 72 hours. If you encounter any problems, please contact our after–sales team for help.
