PRODUCT DESCRIPTION

Chenille fabric. Exceptionally soft, fluffy, and warm to the touch with a fine, plush surface. It offers excellent skin-friendliness and warmth, significantly enhancing the product's coziness and comfort, and infusing a soft, relaxing ambiance into the home.

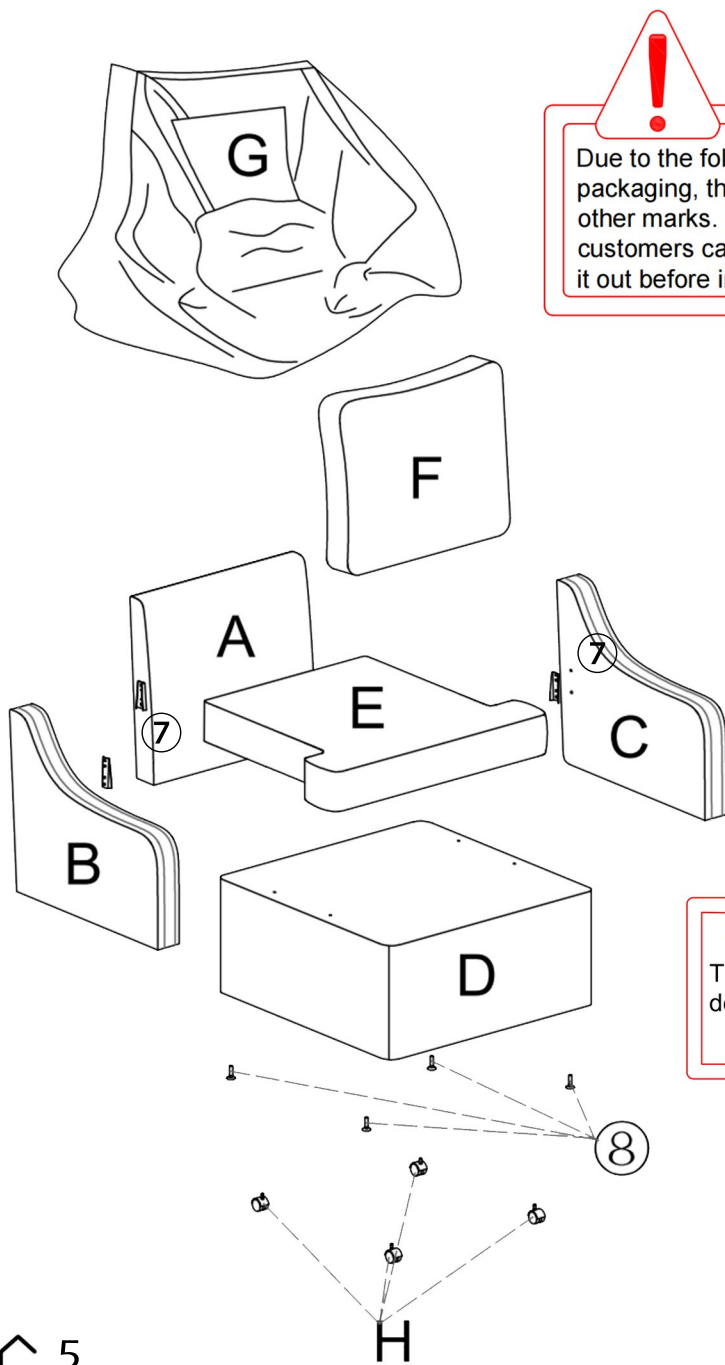

Velcro under seat cushion: The cushion is securely attached to the seat via velcro, effectively preventing slipping or shifting during use or movement, maintaining a neat appearance.

A core seat for multiple scenarios, a movable comfort station. Its caster design breaks the spatial limits of fixed seating, allowing it to easily serve as a flexible study chair, a cozy dining chair, extra living room seating, or a bedside chair, perfectly adapting to dynamic home life needs.

Equipped with swivel casters: Features 360° smooth, quiet-rolling casters for effortless movement, easy repositioning, floor cleaning, or transitioning between rooms (e.g., living room, study, dining room), enabling “one chair, multiple uses”.

The throw pillow is spacious and comfortable with plump filling. Its generous size and full filling allow it to closely contour to the body, providing excellent localized support as a lumbar or back pillow, significantly enhancing seating relaxation and a sense of cozy.

EXPLODED VIEW

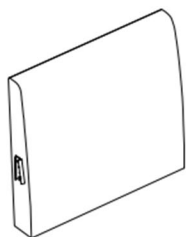

Due to the folding placement during packaging, there may be creases and other marks. Before installing the cover, customers can first lay it flat and smooth it out before installation.

The product's left and right are determined by sitting posture

Glides

Please make sure all hardware&packing material fitting the list.
Especially some small accessories may be missing during
transportation. Please contact us if you have any question.

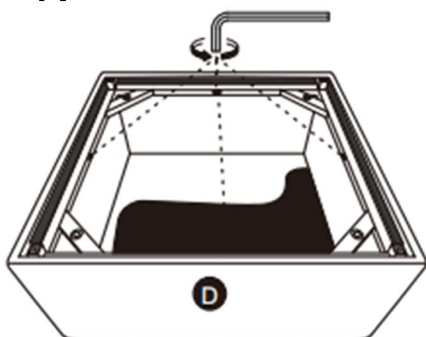

step 1 ---Take out the Armrest

The first step: Use a wrench to remove the iron frame.

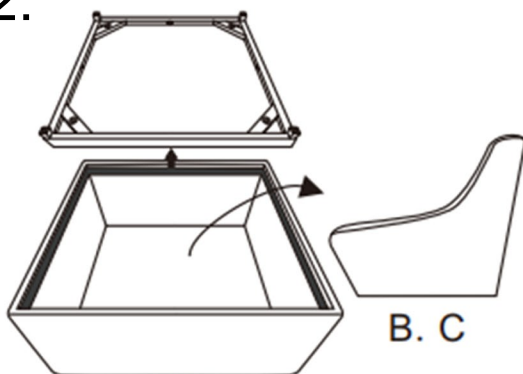

The second step: Take out the handrails inside.

The third step: Put the iron frame back.

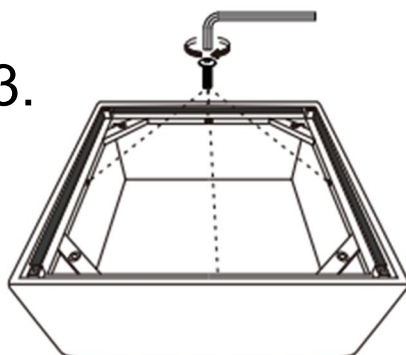

1.

2.

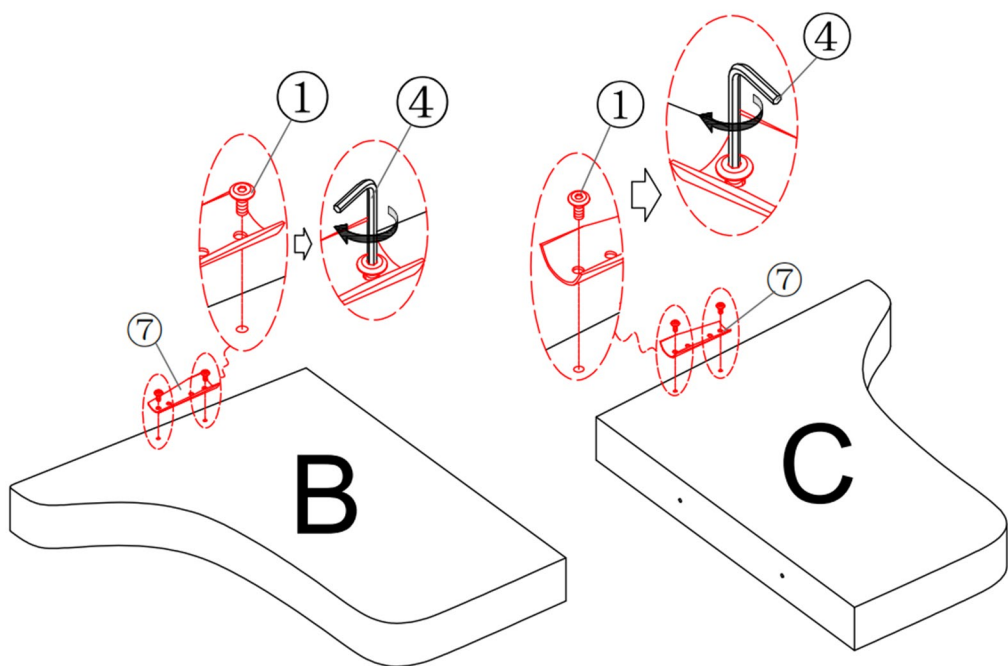

3.

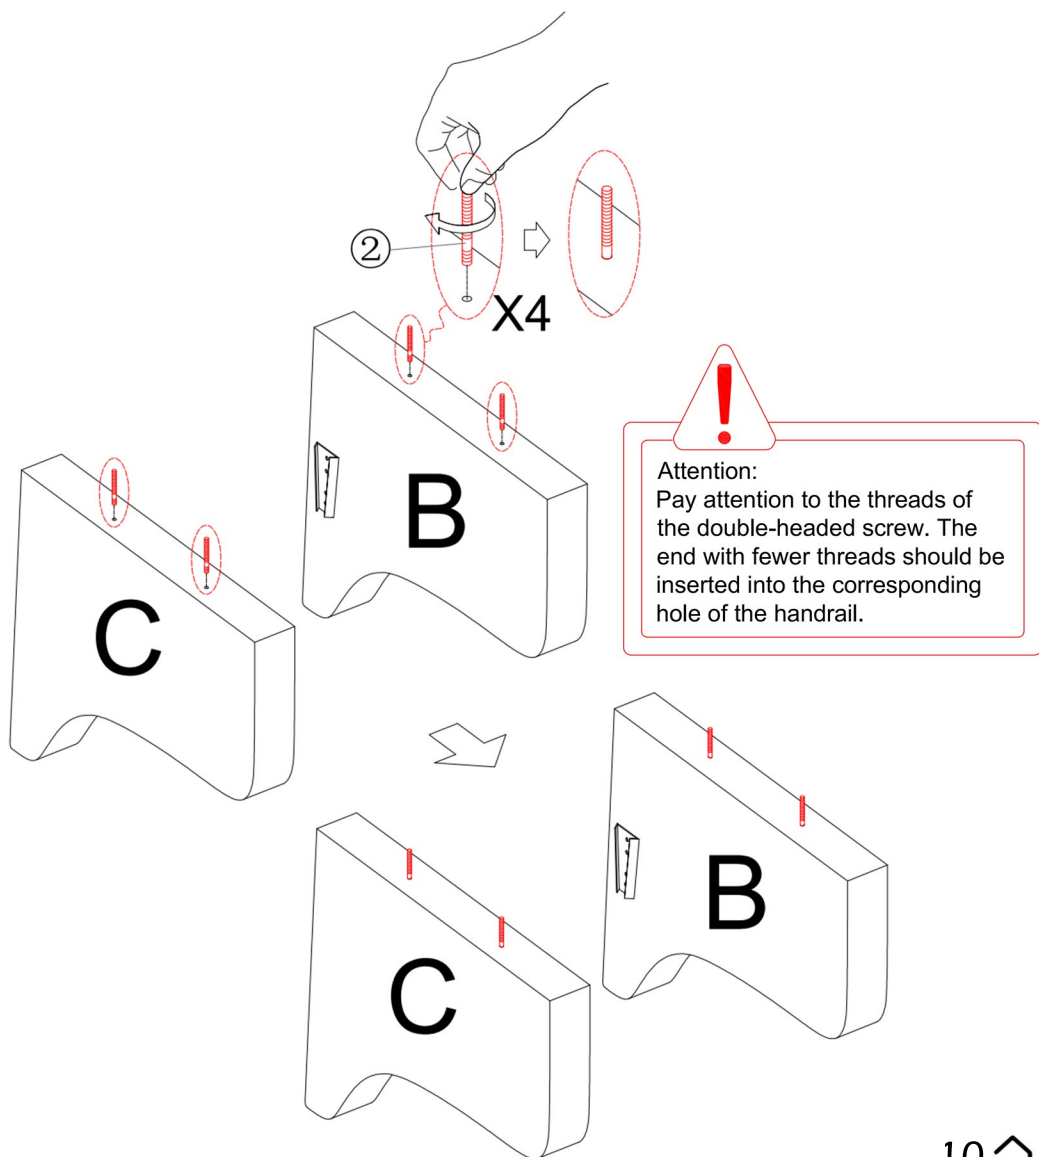

step 2 ---Attach Metal Connectors (7)

Using the provided bolts (1) and Allen wrench (4), attach the Metal Connectors (7) to both Armrests as shown in the diagram.

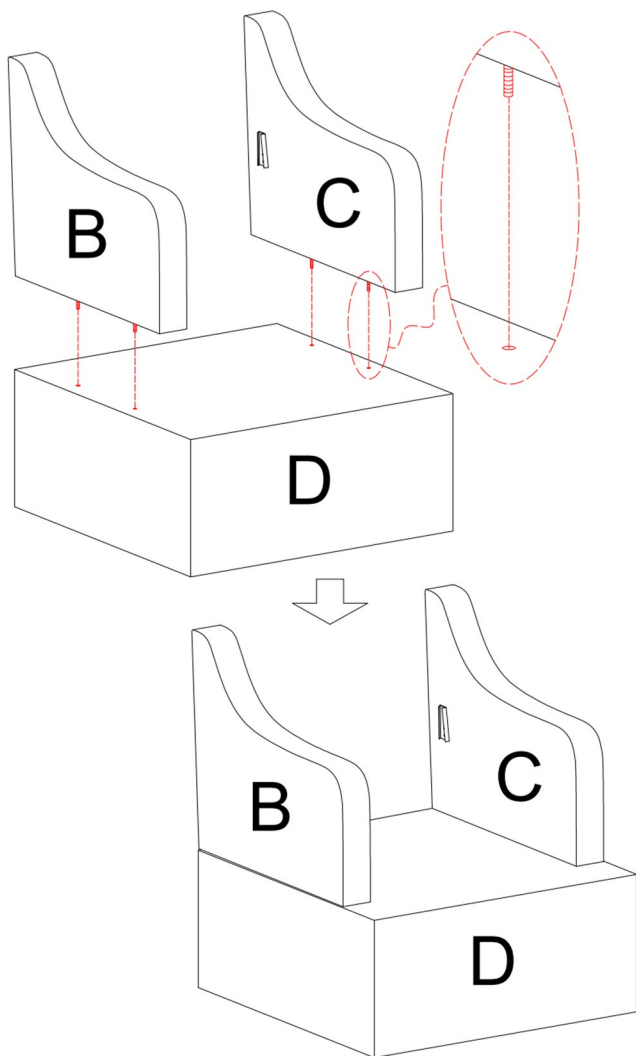

step 3 ---Insert Threaded Rods (2)

Place the Armrests (B&C) on a clean, flat surface. Insert two Threaded Rods (2) into the designated holes on each Armrest (B&C) as shown.

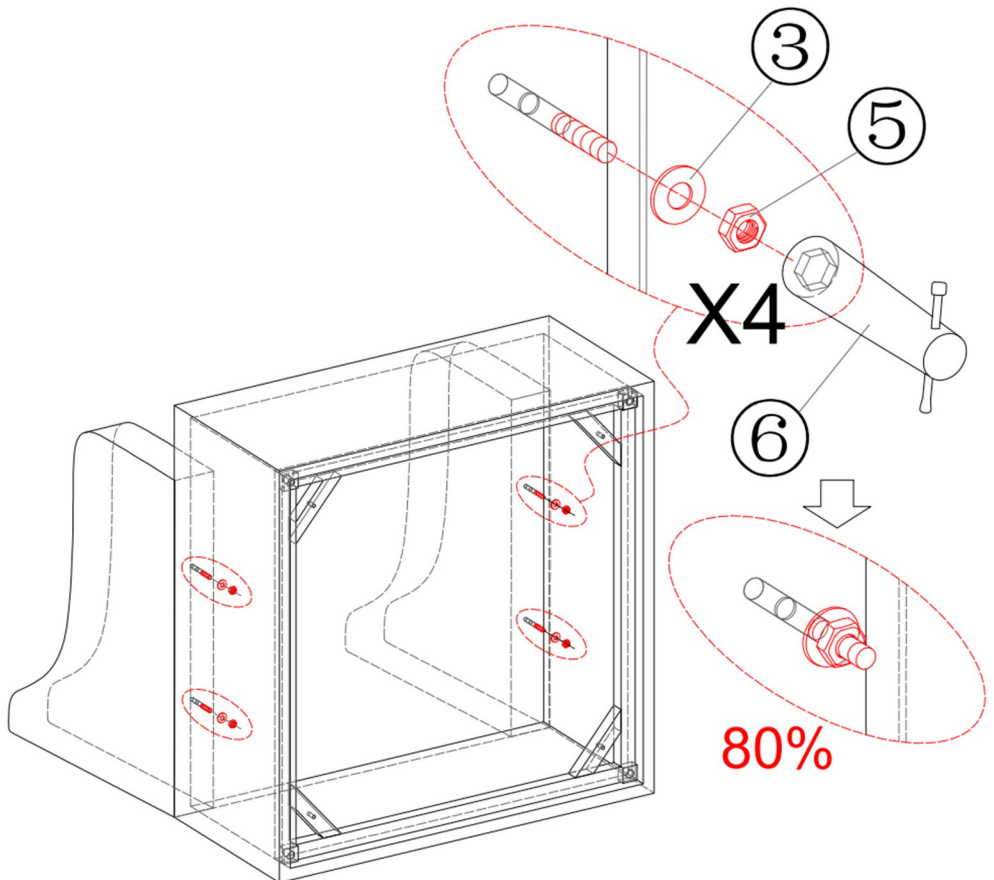

step 4 ---Connect Armrests (B&C) to Seat Frame (D)

Position the Armrest assembly on top of the Seat Frame. Align the holes in the frame with the Threaded Rods on the Armrests. Ensure all holes are correctly aligned before pressing the Armrests firmly down into place.

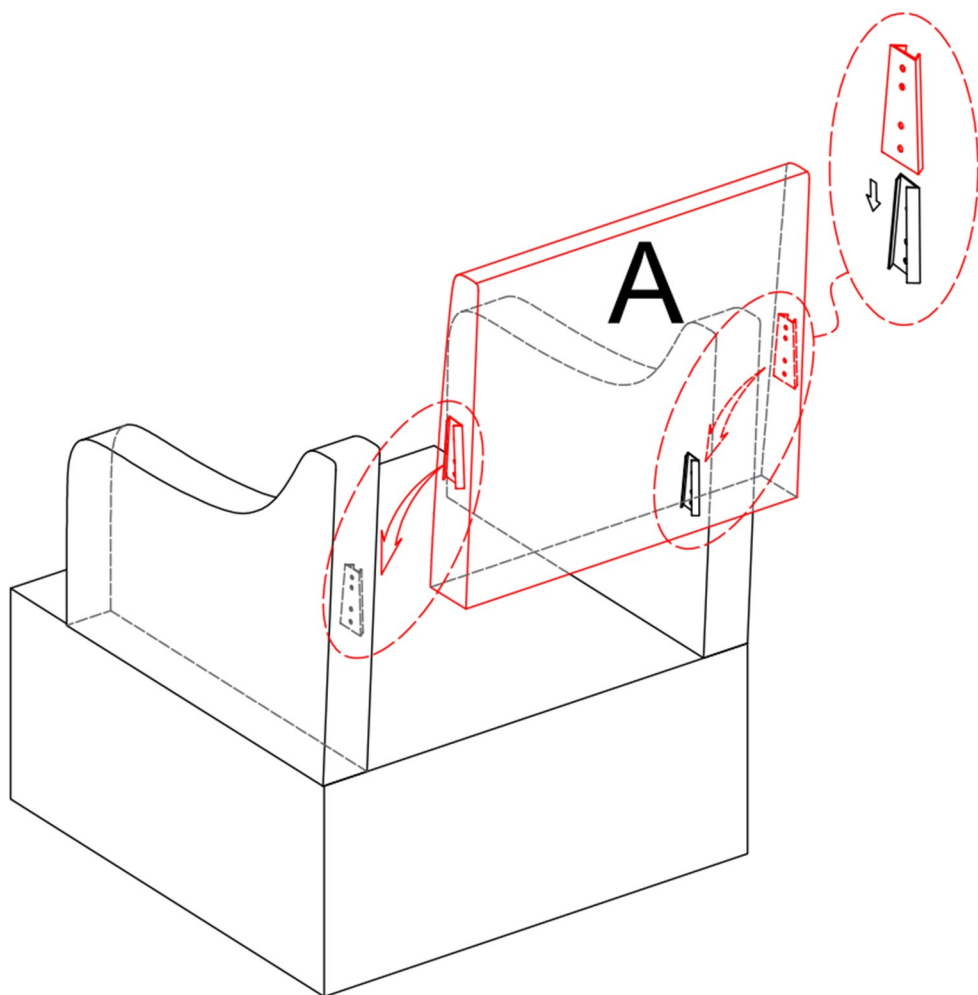

step 5 ---Secure the Armrests (Partially)

Flip the chair frame over. Using the provided Socket Wrench (6), fasten a washer (3) and nut (5) onto each Threaded Rod from underneath. Tighten them to about 80% (snug but not fully tight) to allow for final adjustment in the next steps.

step 6 ---Insert the Backrest (A)

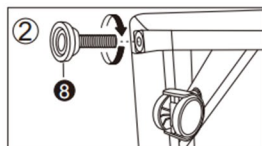

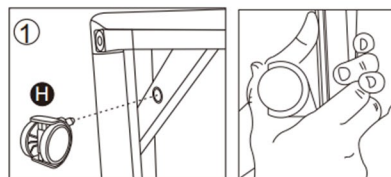

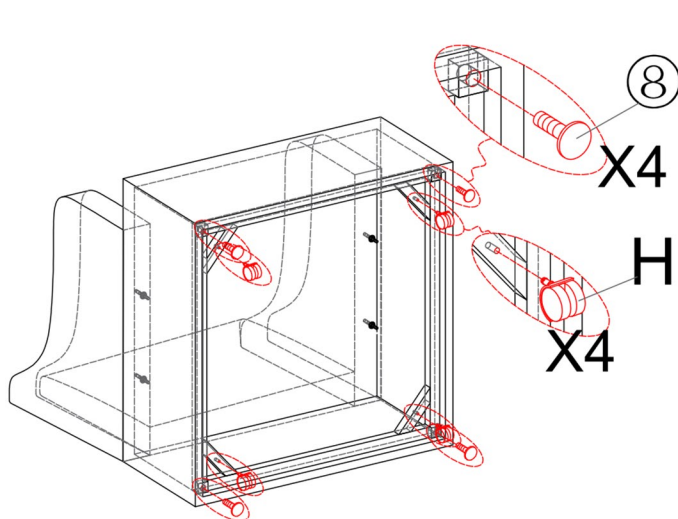

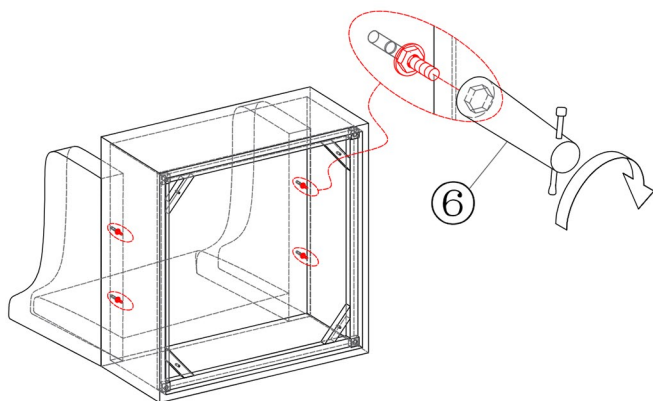

Place the Backrest (A) between the two Armrests. Ensure the mounting connectors on the Backrest are correctly aligned with the corresponding brackets on both sides. Press the Backrest firmly downward until it is fully seated.

step 7 ---Attach Legs and Casters

From underneath the chair, use the Socket Wrench to now completely tighten all the nuts and washers that were partially secured in Step 4. Ensure all connections are firm.

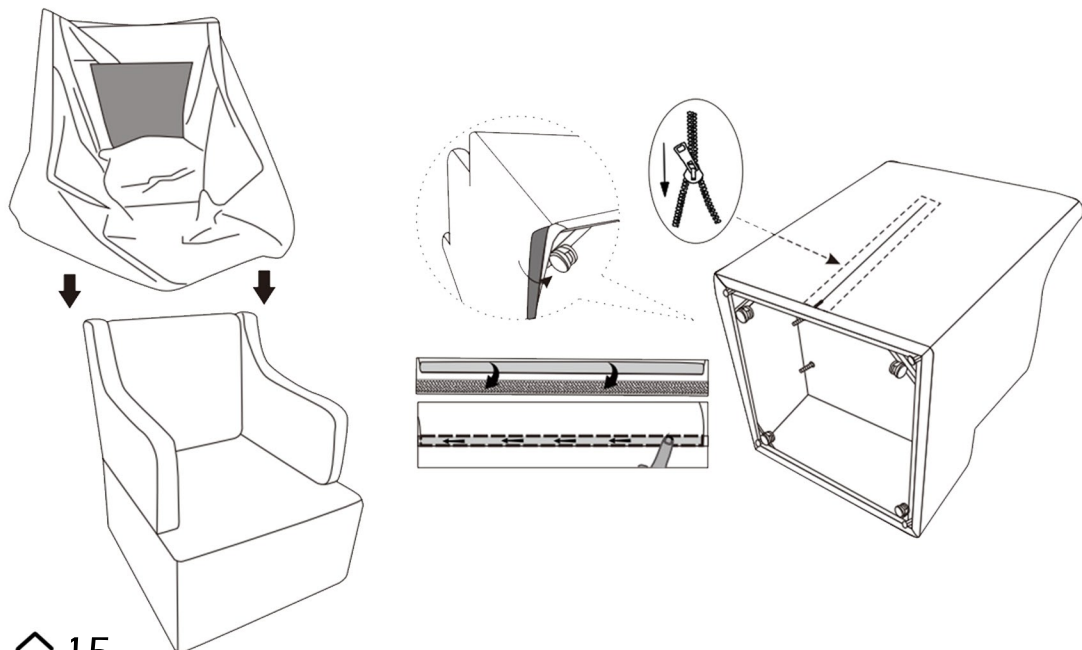

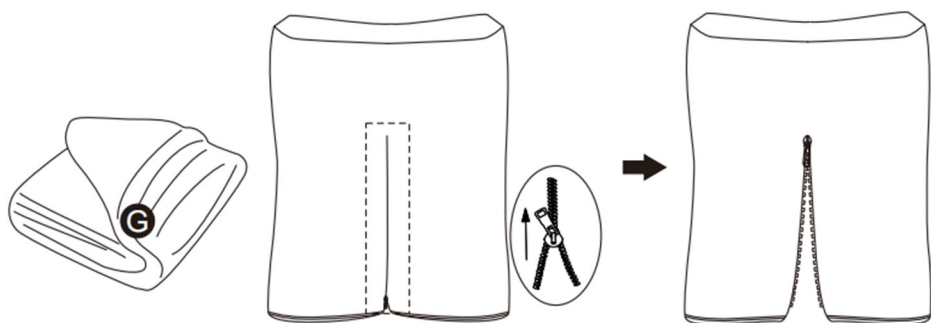

As shown in the diagram, twist the Chair Legs (8) into the sockets at the corners of the chair base. Then, press a Caster (H) into the hole next to the legs.

step 8 ---Install the Slipcover

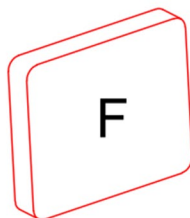

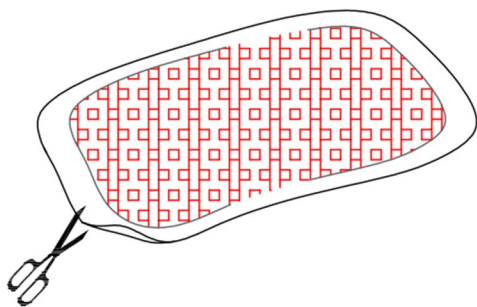

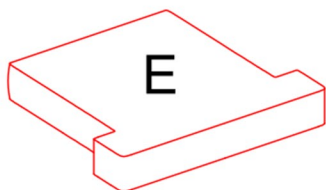

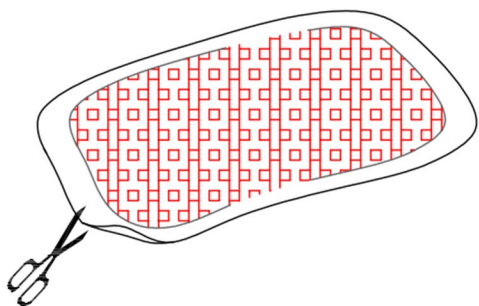

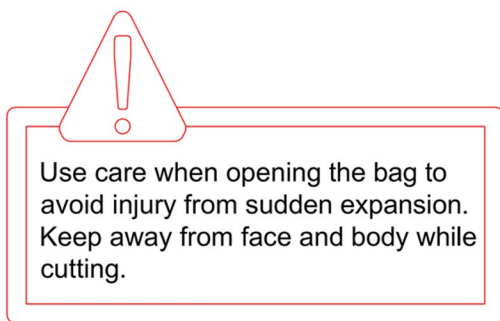

Unfold the Slipcover. Locate and unzip the zipper, which runs along the back of the cover.

Drape the Slipcover over the assembled chair. Tape the bottom edges firmly into the Velcro around the base. Once properly positioned, pull the zipper closed from the back.

step 9 ---Cut the plastic air compression bags

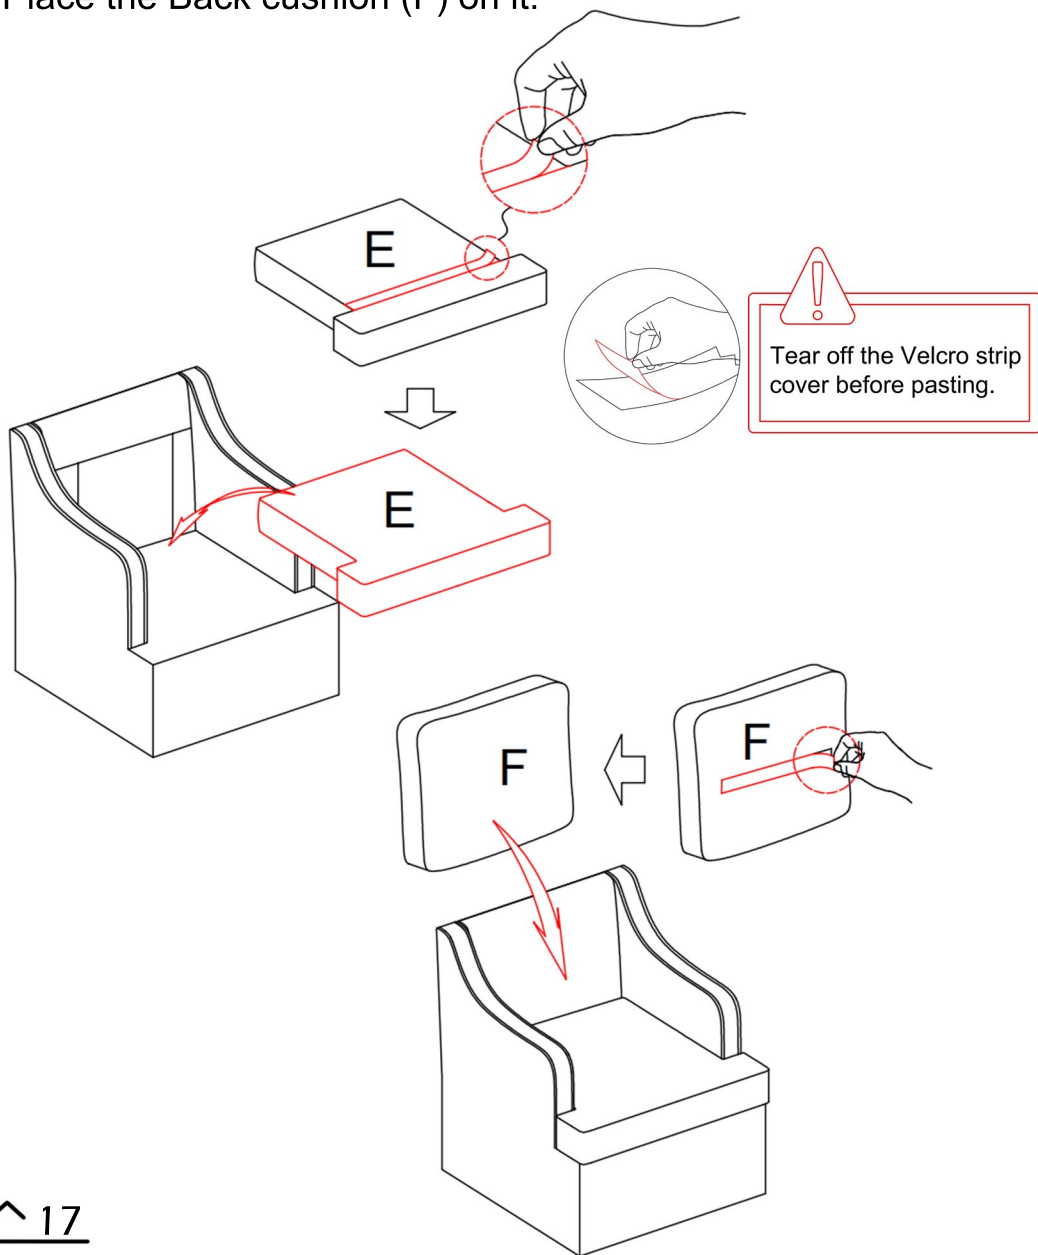

Cut the plastic air compression bags, and take out the cushion (E&F). Let it recover to its original shape, the whole recovery process might take **48** hours, you may gently slap on it to speed up the process.

step 10 ---Place the Seat cushion (E) & Back cushion (F).

Place the Seat cushion (E) on it.

Place the Back cushion (F) on it.

step 1 1 ---Assemble complete

Place the chair properly and tidy it up to make it look nice.
Assembly is complete. Thank you for choosing our product!
Please enjoy!
