

Billiard Cue Rack, Wood Multifunctional Pool Stick Stand Holder Cue Holder for Fishing Rod Golf Club

Description

The ball cue holder is made of high-density plates with plastic-absorbing molded wood grain stickers so that it is more highly **wear-resistant** and durable. The diameter of each hole is 33.4mm/1.3inch, so this large hole size can store most cues. It is suitable for storing billiard cues, golf clubs, fishing rods, hiking poles, ski poles, field hockey sticks, etc. It is used in the home, school, club, billiard room, bar, gym, etc.

Key Features

More Wear-resistant: The ball cue holder is made of high-density plates with plastic-absorbing molded wood grain stickers so that it is more highly **wear-resistant** and durable.

Multifunl Holder: This 9-hole ball cue holder can not only store billiard cues, but also fishing rods, golf clubs, and other sporting goods at the same time.

Large Aperture: The diameter of each hole is 33.4mm/1.3inch, so this large hole size can store most cues. You don't have to worry about not being able to put your cues, such as fishing rods and golf clubs, because of the small diameter of the hole.

Stable Structure: The round ball cue holder with 15.2mm/0.6inch thick plates has a stable structure. Even if it stores multiple cues at the same time, it can stand very firmly.

Vintage Style: The floor-to-ceiling round vintage-style ball cue holder has a simple and classic design that can match different decorative styles and also decorate your billiard room.

Taking up Less Space: The ball cue holder can be placed in a corner without taking up much space because of its small footprint and full use of vertical space.

Neatly Organized: It allows you to have a separate storage hole for each cue, which helps to store each of your cues neatly and makes it easy to pick up and put away.

Easy to Clean: You can easily clean the ball cue holder without much effort and time because of its smooth surface brought by the blister molded wood grain stickers.

Details

Recesses on the Base Plate: The recesses on the base plate correspond to the upper holes for stabilizing the cues. It increases the stability of the cues on the ball cue holder.

Fixing Screws: The metal screws with strong toughness and hardness make each plate more securely connected, increasing its stability.

Application

It is suitable for storing billiard cues, golf clubs, fishing rods, hiking poles, ski poles, field hockey sticks, etc. It is used in the home, school, club, billiard room, bar, gym, etc.

Specification

Material: High-density Wear Plate
