ASSEMBLY INSTRUCTIONS

Be certain that barrel nuts and bolts screw together easily BEFORE beginning assembly.

1. On a table lay out all parts as shown in the exploded view above.
2. Attach straight arms to the rectangular bookshelf frame.

TIP! It is easiest to attach the arms when you insert the Barrel Screw (18A) from the outside and then the Barrel Nut (18B) from the inside using the hex keys provided.

INSTALLATION INSTRUCTIONS

Provided: Installation hardware (anchors, bolts, wall screws)

You will need: level, tape measure, pencil, electric drill.

1. On the wall, mark the four points where the top of rack arms and back of the base of the bookshelf will attach. Then tap a small nail through each mark to be certain a joist is not in the way
2. Install the plastic anchors into the wall before mounting the rack and using the wall screws. Use a hammer and tap lightly the plastic wall anchors so they are completely flush with the wall. Then place the bookshelf.

INSTALL IN WOOD: If you need to install one or both sides of your rack in wood, use as many of the four wall screws (30A) included without any plastic anchors.

PAINTABLE: Want a different color? The finish on this pot rack can be spray painted any color. We recommend Rustoleum "Hammered" colors for their metal-like finishes, however any quality spray-can paint may be used. See a paint retailer for guidance

WARNING: It is important that your pot rack is assembled correctly. If the unit is assembled or used incorrectly, it could become unstable and collapse, possibly causing injury.
