The Lyon Linear Large Chandelier was designed by Tom Caldwell as a handsome long chandelier to illuminate kitchen islands and bars. The bronze verdigris finish brings the metal serious warmth, which is contrasted by the white acrylic diffuser that softens the light. Tom notes that this bronzed chandelier would be perfect over a pool table or in a game room, and the fixture is dimmable and fitted with integrated LED technology. We also offer the Lyon in a version that isn't quite as long.
