Product Size: 59*46*9.6cm/23.2*18.1*3.7in

Package Included

1* Pants Hanger

All Accessories for Assembly

Installation

1. Determine the installation height of the track, so that the first hole on the outside of the track and the cabinet side distance is 5cm/2in.
2. Mark the location of the screw holes after determining the installation position of the track.
3. After the track corresponds to the decorative belt and base to complete the assembly, install both sides of the track.
4. Install the decorative cover (wide head against the outside) and push the frame into the track horizontally. Complete the installation.

Application

It is perfect for hanging jeans, pants, pants, ties, scarves, etc. in bedroom closets, lockers, and wardrobes to keep it compact and organized

Notes

1. This trouser rack needs to be installed at the top, so the top installation must be fixed, can not have a hanging rod, can not be installed under the drawer, because the drawer is to be pulled out.
2. Please allow the slight color difference caused by the shooting light and 1-3cm error due to manual measurement, and make sure you do not mind before ordering.
