Key Features

HEATER AND FROTHER IN ONE – The Ovente Deluxe Milk Frother comes with two whisks for heating and frothing milk. It can whip up both hot or cold foam and heat milk, giving you endless options for your caffeine game. With this, you can spice up regular beverages and turn it into unique creamy creations, from early morning espressos to late-night hot cocoas.

VELVETY MILK FOAM AT ONE TOUCH – Indulge in soft, bubbly foam with just a touch of a button! This multifunctional, user-friendly milk frother features a one-touch button for both frothing and heating milk. It also has a see-through lid so you can see the milk froth at one peek and a 360° rotary base so you can swivel it around.

STAINLESS STEEL – This milk frother comes in the size (4 oz of milk for frothing and 8 oz for heating) that's right for one serving. It is compact enough not to take too much space in your kitchen countertops and portable enough that you can bring it for overnight staycations!

AUTO SHUT-OFF – Equipped with a safety feature, this one shuts off on its own when there is no liquid in the carafe. Hence, it won't heat up even if you accidentally left the frother plugged in.

LIMITED 1-YEAR WARRANTY – All Ovente products have a one (1) year warranty period from the date of purchase from an authorized retailer. This warranty only covers defects in workmanship and materials. Please note that you have to provide proof of purchase to request for repair or replacement.
