

## Assembly Instruction

1. Identify the long chrome leg with a faceplate, this is positioned at the arm side of the sofa.
2. Screw in the leg with the provided bolts.

3. Screw in the 3 Support legs shown in the picture to the left. The holes will have to be located beneath the black dust fabric under the sofa.

4. Identify the long chrome leg without the faceplate. This is positioned at the front side of the chaise.
5. Screw in the chrome leg with the bolts provided.

6. Screw in the 3 Support legs shown in the picture to the left. Like step 3, the holes will have to be located beneath the black dust fabric under the sofa.
7. Installation of the American Eagle EK-L025 is now complete.
