Product Description: Be enchanted each time you open the timeless Chatelet Floor Mirror with storage space to organize all your necklaces, earrings, bracelets and rings. The mirror combines the soft amber Caramel Froth finish and the antique white Paris vintage finish for a rich neutral blend with warm appeal. Inside the mirror is a felt-lined back panel with jewelry bags, hooks and ring holders and two dividers for necklace storage. Attaches to the wall for security.

Collection Features: Come home to your little castle. Relax in a livable luxury with Chatelet, a whole home collection inspired by timeless farm style antiques found in "little castles" of Old World Europe.

Status: Active

Finish: A combination of Caramel Froth and Paris Vintage. Pecky pecan veneers are warmed by a soft amber color and a touch of aged white paint to highlight distinctive grains and moldings in the Caramel Froth finish. The Paris Vintage finish is a distressed vintage white. Distressing includes scraping lines, sloping lines and rasping.

Features: Lock with skeleton key
Felt-lined back panel with jewelry bags, jewelry hooks, ring holders and two dividers for necklace storage
Attaches to wall for security

Material: Pecan Veneers, Felt, Jewelry Bags, Resin and Mirror

Finish Construction: Hooker Furniture utilizes a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes feel as good as they look, with a smoothness that is delightful to the touch.

Frame Construction: Hooker Furniture uses carefully chosen solid wood and select wood veneers over durable wood products in our furniture construction. Use of veneers enables more decorative looks unattainable with solid wood. Veneers are used over durable wood products such as medium density fiberboard (MDF) and particle board, made of renewable resources. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture.
