

DECORATIVE STATUE

Please read this manual carefully before use and save it for future reference.

Each statue is cast and hand-painted. Imperfections from the casting and hand-painting processes are normal. Pitting on the surface of the statue are caused by air bubbles becoming trapped when the casting materials are poured into the mould. Over time, paint finishes will gradually mellow in color; this is part of the natural aging process.

LOCATION

Select a flat, level surface to place the statue. Avoid high-traffic locations, such as areas where children or pets play.

CLEANING

Clean your statue often to prevent dirt and debris from building up.

1. Remove loose dirt, cobwebs, and debris with a very soft-bristled brush, like a paintbrush.
2. Gently rinse the statue using water only and allow it to air-dry.

IMPORTANT INFORMATION

- For decorative purposes only. This item is not a toy.
- Store indoors during inclement weather and freezing temperatures.
- Do not use harsh chemicals or abrasive materials to clean the statue.
- Do not use a pressure washer or high-pressure sprayers to clean the statue; doing so may damage the statue or cause the paint to peel.

Any modification to the product or failure to follow recommended care will void the product warranty.
