ASSEMBLY PRECAUTIONS

1. Assemble needs to follow these instructions. Incorrect assembly can be a hazard.
2. Wear safety goggles and heavy-duty work gloves during assembly.
3. When drilling the screws, it is recommended to choose **electric screwdriver**.
4. Do not assemble when tired or when under the influence of alcohol, drugs or medication.
5. Weight capacity and other product capabilities apply to a properly and completely assembled product only.
6. Keep the assembly area clean and well-lit.
7. Keep bystanders out of the area during assembly.
8. Assemble on a flat, level, hard and smooth surface.

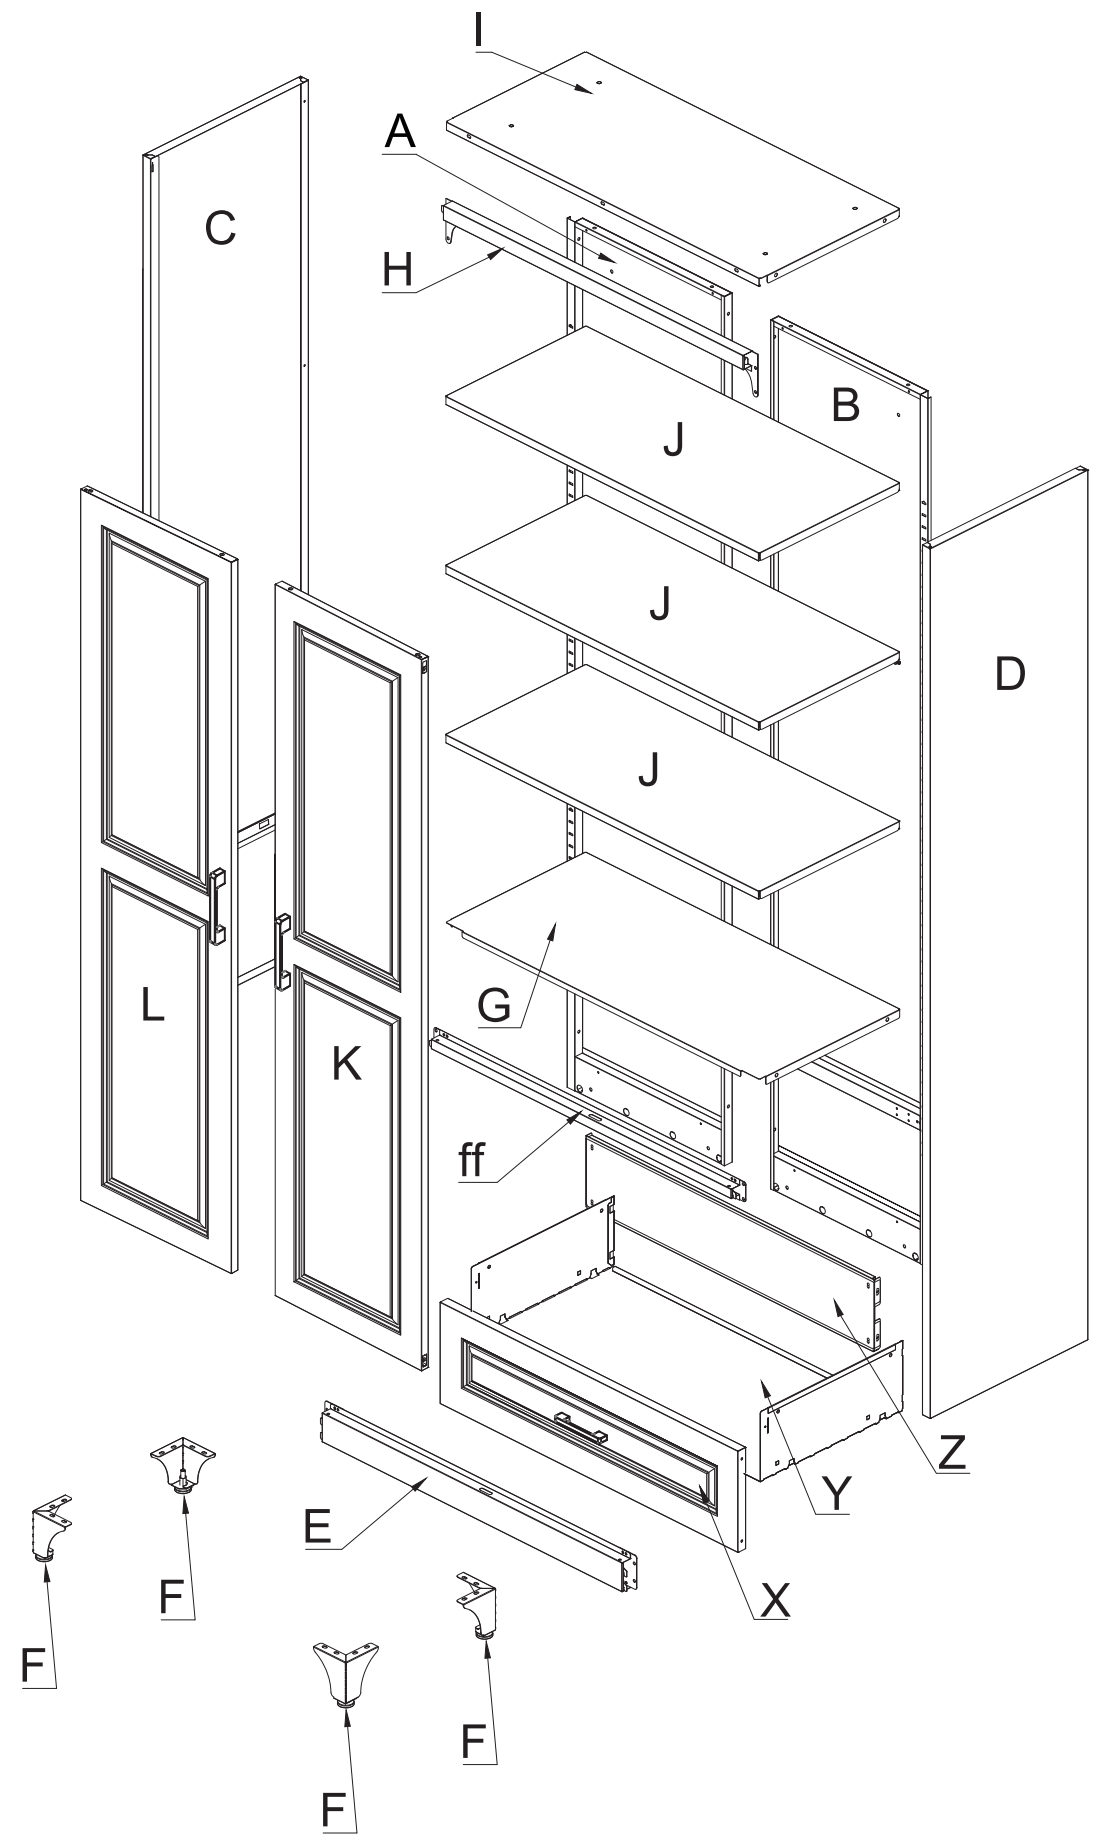

Tips

Using an electric screwdriver makes the install process easier and faster.

step 14

 WARNING

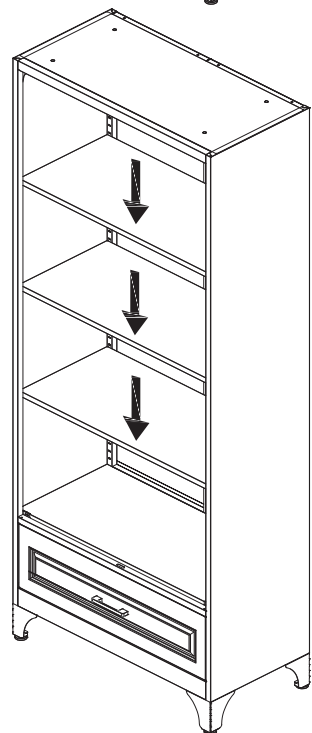

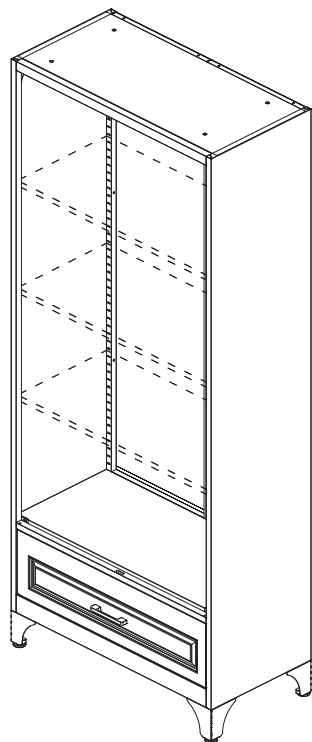

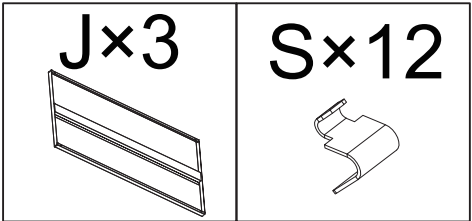

Serious or fatal crushing injuries can occur from the tip-over. To prevent this cabinet from tipping over, it must be Permanently fixed to the wall with the included wall attachment device provided. Assess the suitability of the wall to ensure that it will withstand the forces generated.If you are uncertain, seek professional advice.

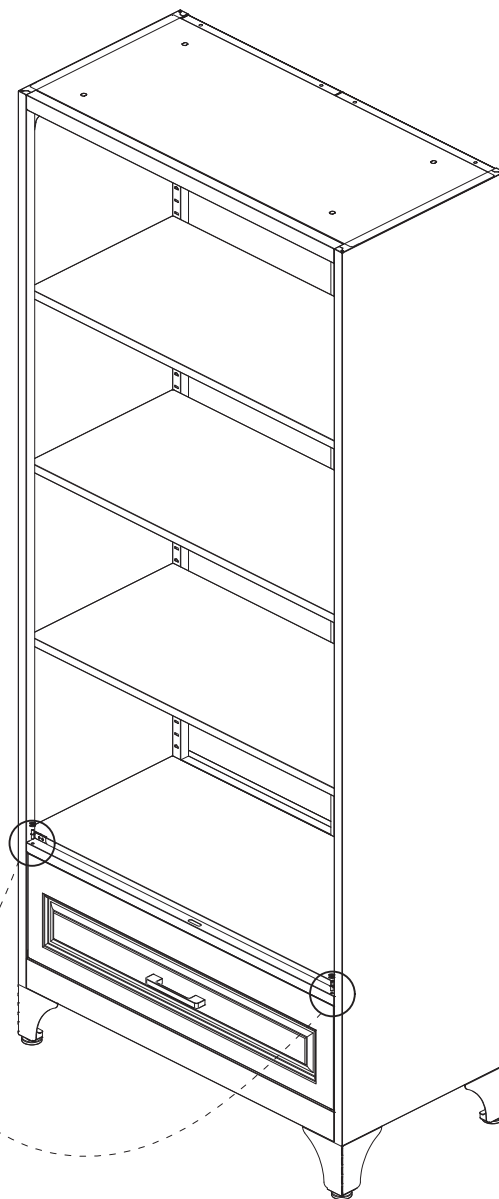

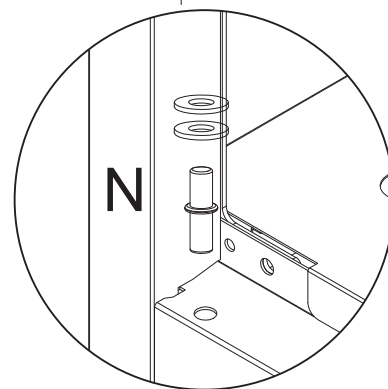

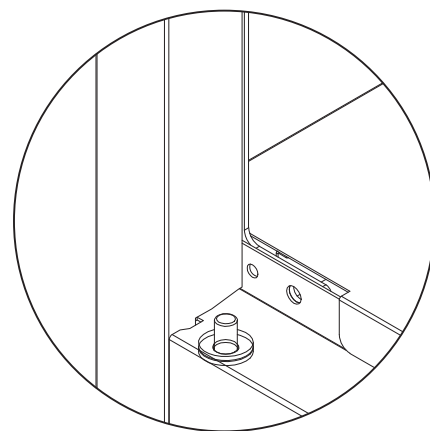

step 15

Put 4 support clips S in the four corners of the cabinet. 4 clips must at the same level.

step 16

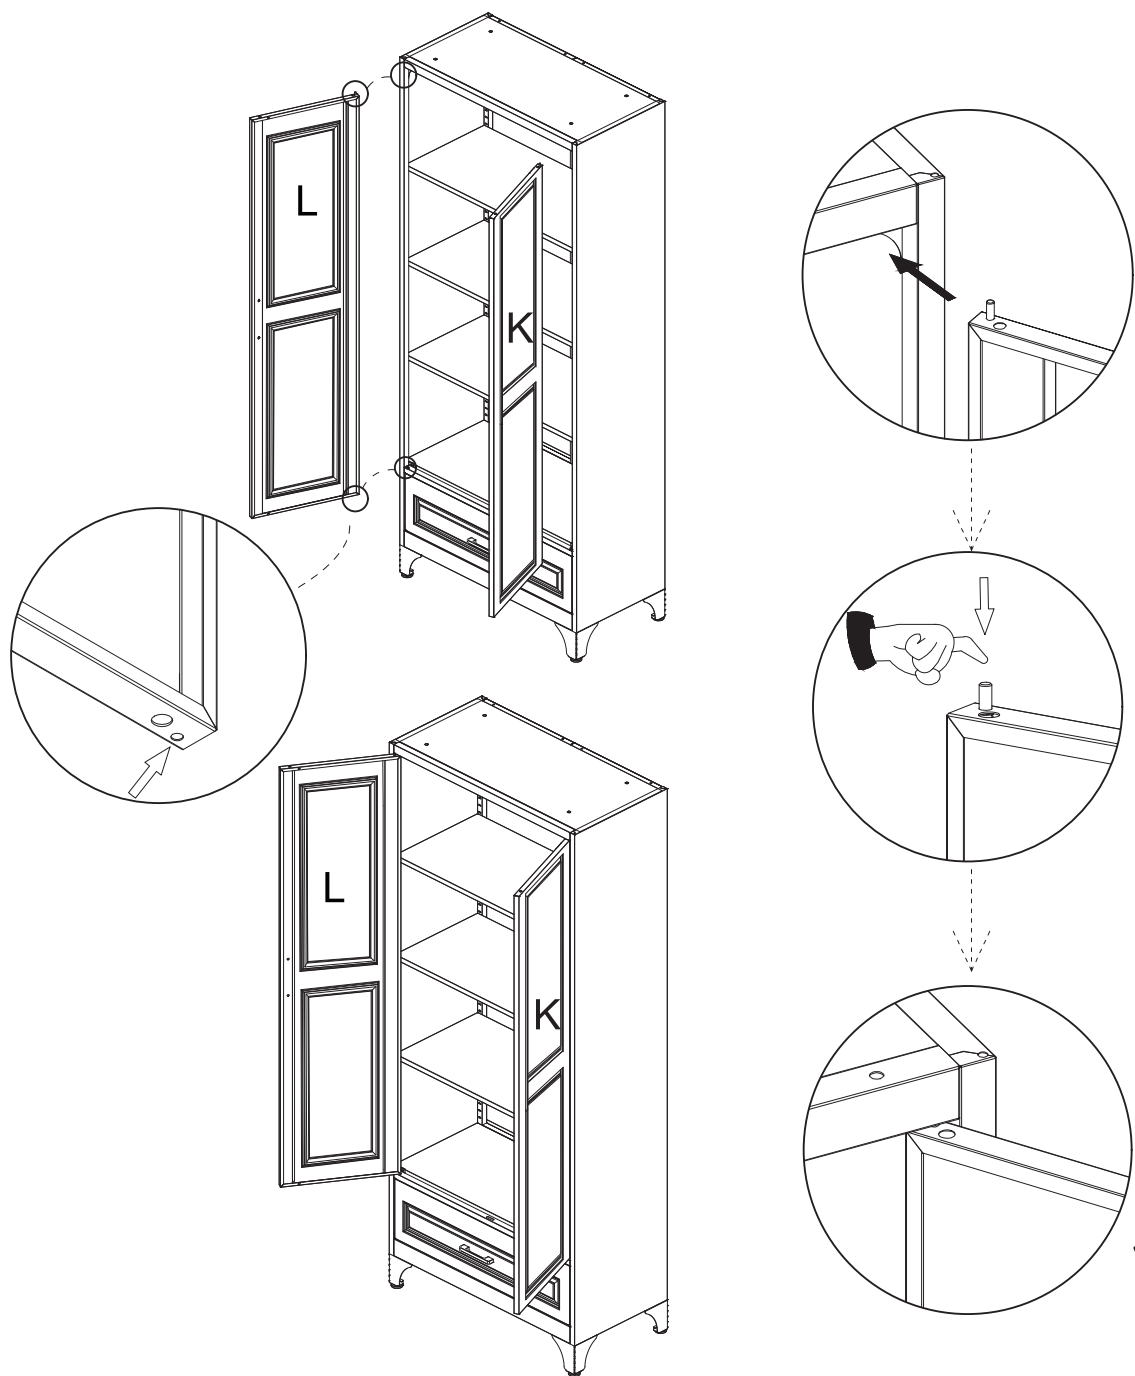

step 17

! NOTICE

If the spring shaft missed from the door, you can find the spare part in the hardware bag. Insert the crooked part to the hole. Need help? Contact our customer service via email on page 3.

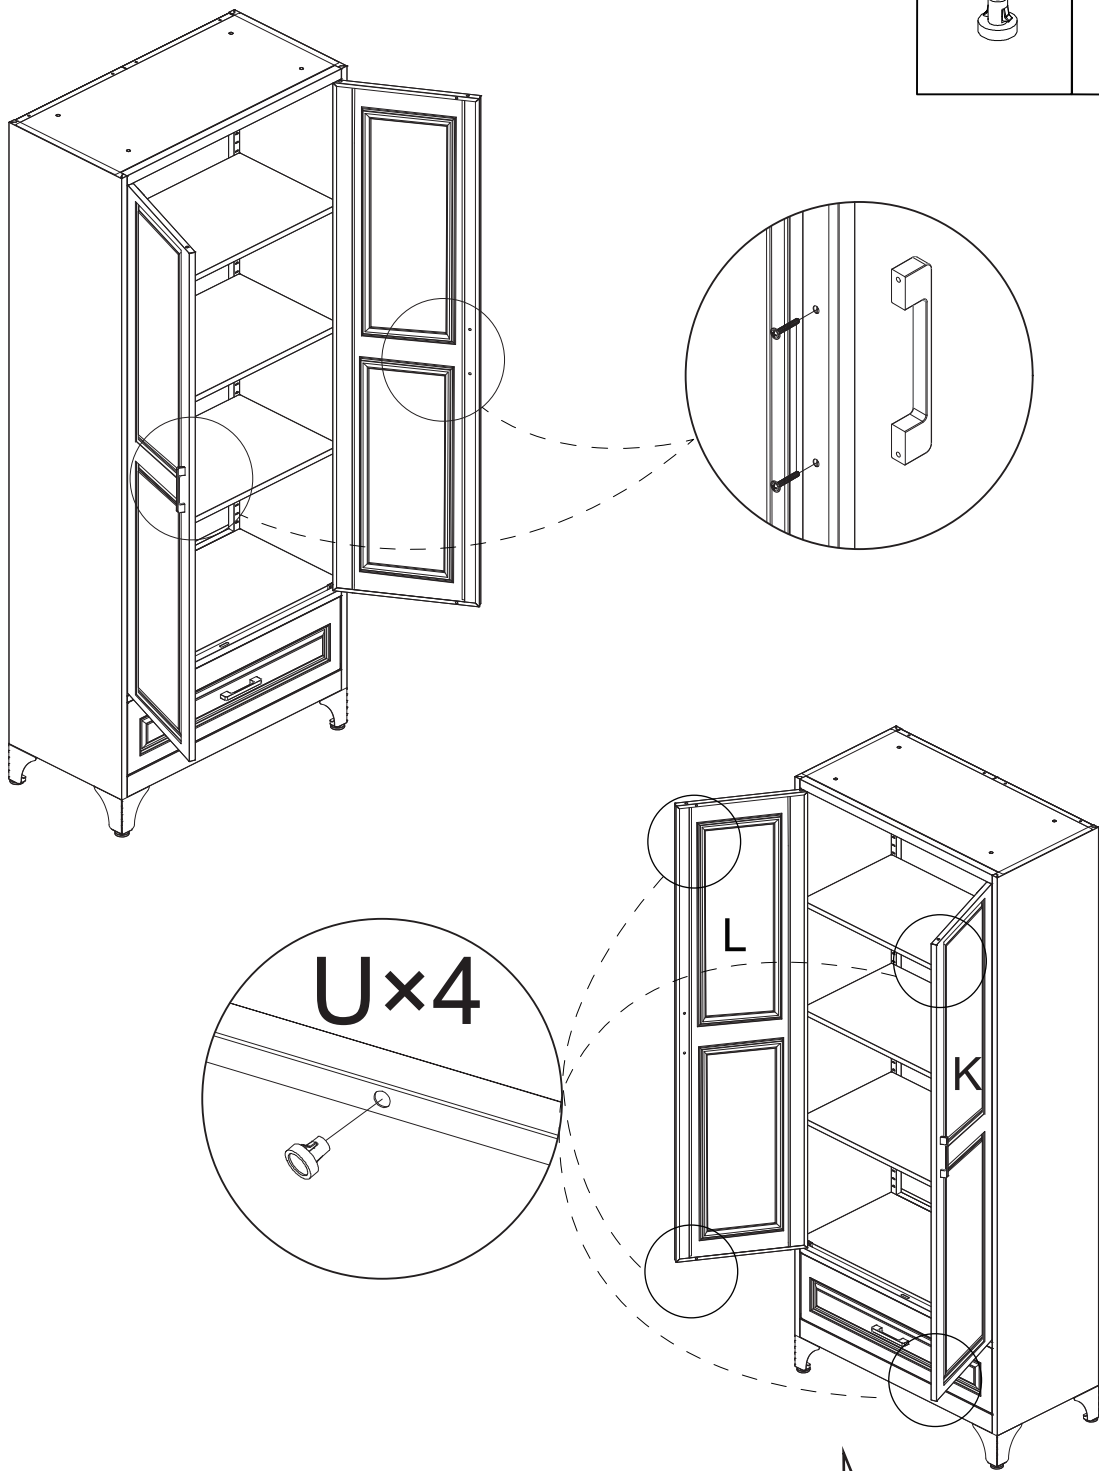

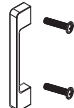

Nx2

First, install the lower door shaft hole on the door shaft N, and then press down the spring pin on the top of the door to match the hole on the cabinet body.

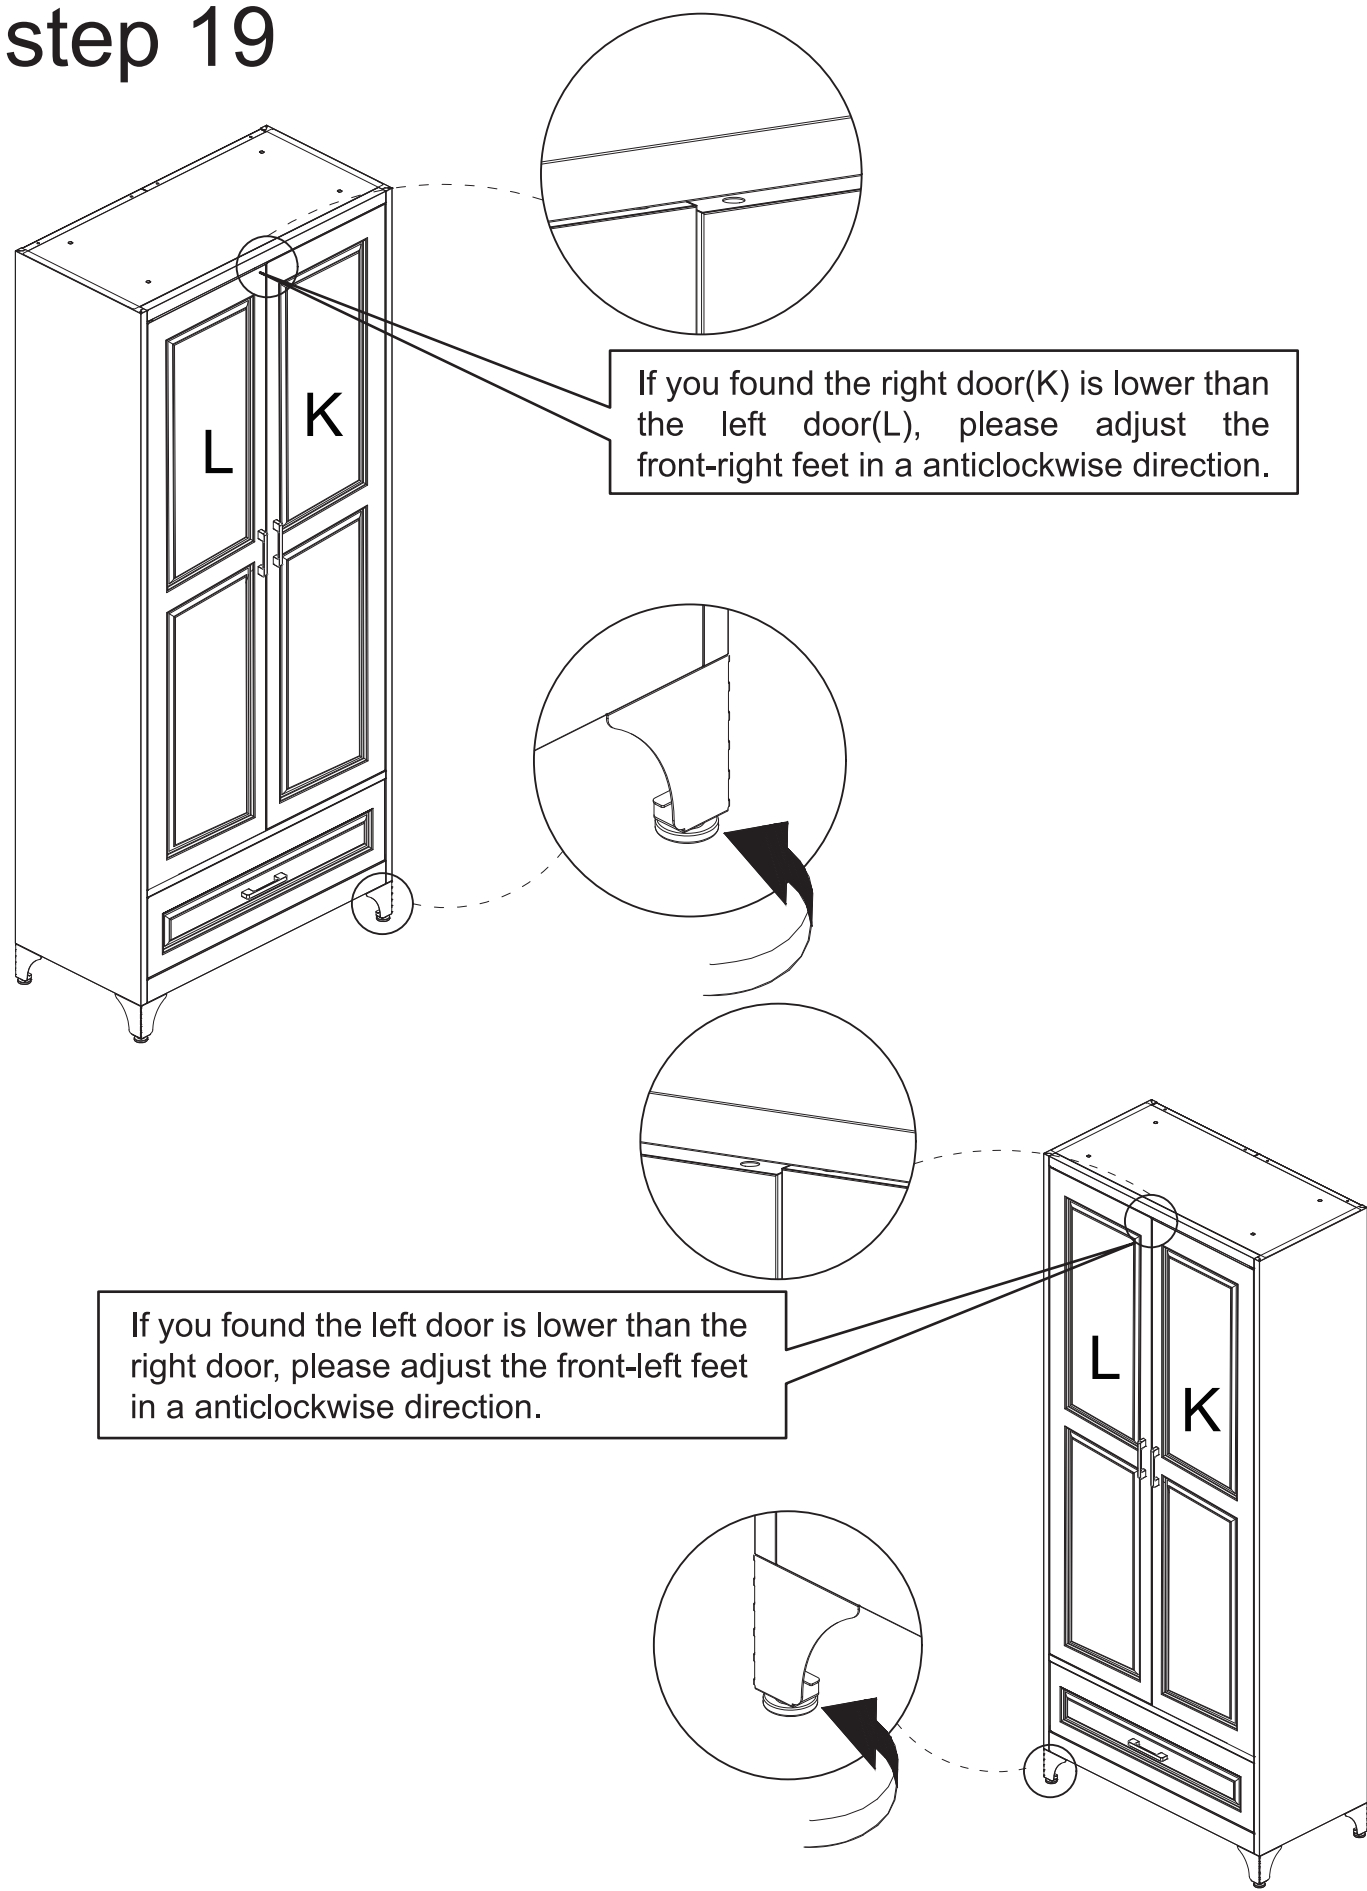

step 18

Ux4 Vx2

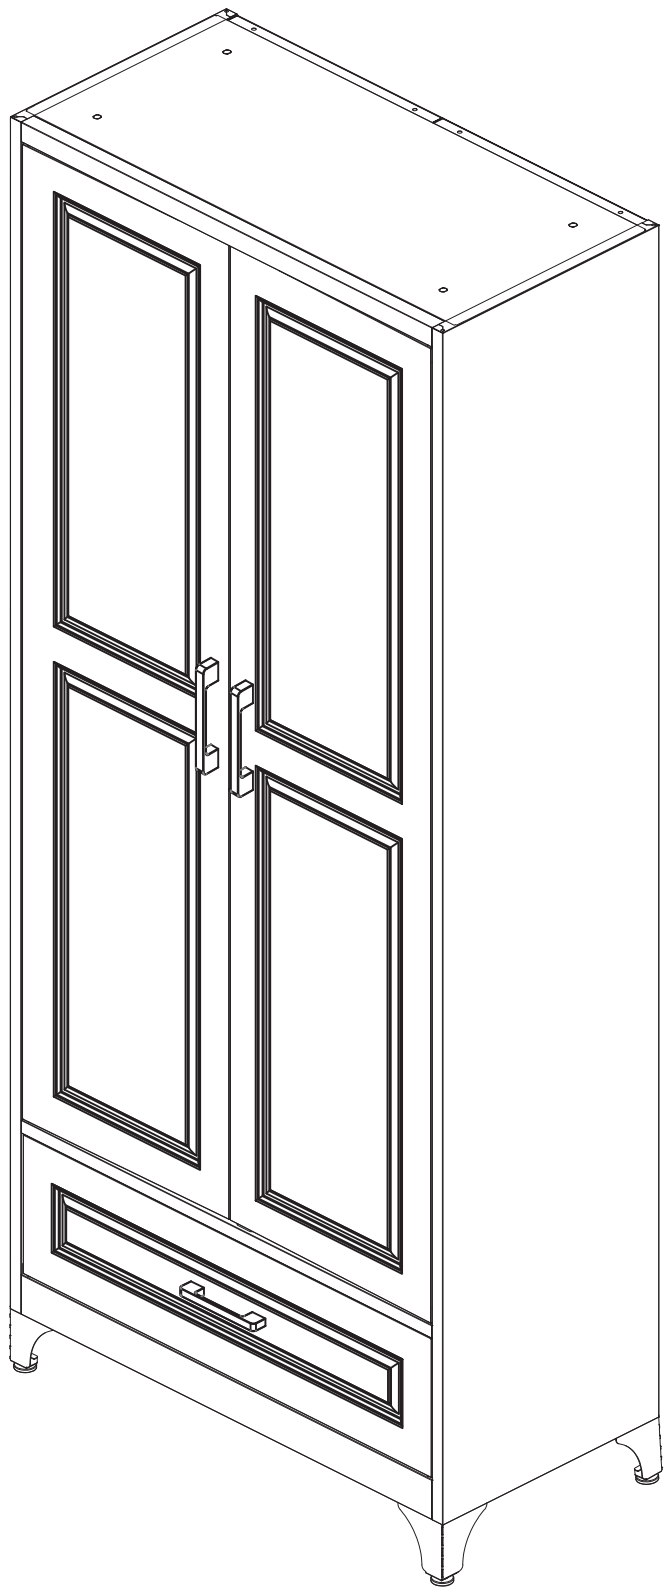

Install the handle (V) and the magnetic catches(U).

step 19

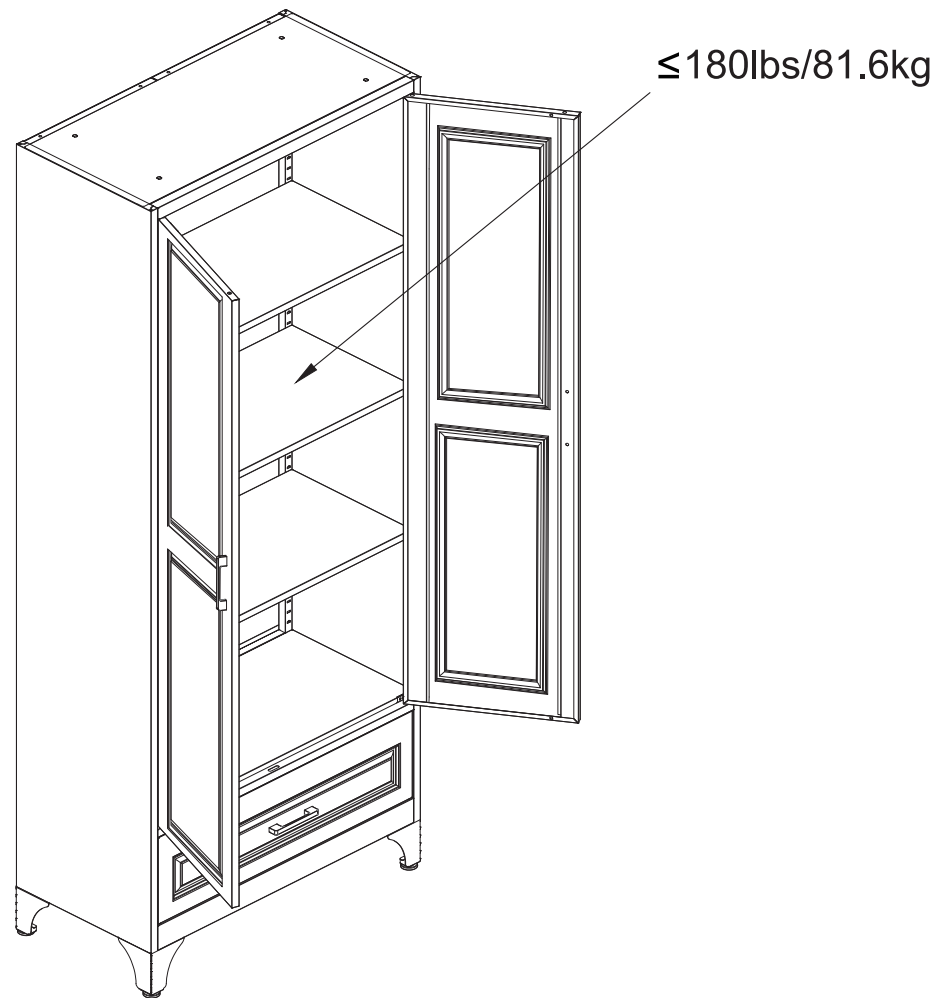

COMPLETION

General Care

Cautions: The load-bearing limit for each shelf is 180lbs/81.6kg only when the weight is spread evenly. Don't try to load over the limit nor load heavy items onto one position of the shelf.

Cleaning

- For cleaning, wipe the surface with a damp (not wet) cloth or wipe dry with a clean lint free cotton cloth.
- Window cleaning liquid or a similar cleaning liquid can be used to clean the surface.
