

ASSEMBLY AND INSTALLATION INSTRUCTIONS

WARNING: TO AVOID RISK OF ELECTRICAL SHOCK, BE SURE TO SHUT OFF POWER BEFORE INSTALLING OR SERVICING THIS FIXTURE.

Hardware Package (included):

Installation Steps

Turn off the power at fuse or circuit box

1-2. Attach the booms to the light poles, then secure the booms to the canopy with lock nuts and lock washers.

3. Connect wires of the same color as follows:

- Connect the white wires from the three booms to the short white wires provided and twist them into the wire nut.
- Connect the black wires from the three booms to the short black wires provided and twist them into the wire nut.

4. Attach the mounting strap to the outlet box using the mounting screws.

5. Pull out the source wires from the outlet box. Make wire connections using wire nuts as follows:

- Connect the black wire from the fixture to the black wire from the power source.
 - Connect the white wire from the fixture to the white wire from the power source.
 - Attach the fixture grounding wire to the mounting strap with the green grounding screw, and then connect it to the house grounding wire with a wire nut.
- Carefully put the wires back into the outlet box.

6. Attach the canopy onto the outlet box and tighten it with two ball nuts.

7. Install the bulbs (Bulb not included).

Turn on the power at fuse or circuit box
