Assembly instructions:

HWH-054

Step 1 - Place center bar (3) on a flat service.

Step 2 – Slip the rubber four leg caps (7) onto each end of the two legs (5).

Step 3 - On each end of the center bar, insert the legs (5) to raise the center bar slightly off the flat service. Secure with grip screws (1) at each end of the hammock, under the center bar where center bar meets the legs.

Step 4 - Insert hammock support poles (4) into the inserts from the legs slanted up. Secure with grip screws (1) at each end of the hammock, where the hammock supports meet the legs.

Step 5 - Screw the hammock hooks (2) into each of the top hammock support poles (4) , with the hooks on the outside of the assembly facing down as pictured.

Step 6 – Place the end ropes of one end of the hammock bed (6) over the U bar of the hammock support pole (4) and then over the hammock hook(2). Stretch the other end rope over the other U bar and over the hook on the opposite end of the assembly.

Attention:

1、 Hammock load-bearing: 300 lbs

2、 Child used in the adult guardianship.
