

Warnings and Cautions

Please retain this instruction for future usage and read carefully before assembly.

Make sure you have all the parts & hardware as item list shows.

2 adults or more are recommended to install your gazebo.

Do not discard any of the packaging until you have checked that you have all the parts and pack of fittings.

Check all bolts for tightness before use, and periodically check and tighten bolts to ensure your gazebo works properly.

Some parts might have sharp edges/corners. Please follow basic safety precautions to reduce the risk of hurts.

*Maximum weight capacity is **1000 pounds**.*

*It is essential to place the gazebo on level ground and not less than **6 feet** from any obstruction such as fences, garages, overhanging branches, laundry lines, or electrical wires.*

If you have questions or concerns.

*Please contact us via email at **service@domioutdoorliving.com***

Matters needing attention

1. Two or more people are required for assembly.

2. Do not fully tighten screws prior to complete assembly.

IMPORTANT

The construction of a gazebo may require a municipal permit or be subject to specific building codes. It is the responsibility of the consumer to check and ensure compliance with any local regulations or restrictions before proceeding with assembly.

In-ground Base Assembly

In-ground Base Assembly

Dig a hole (24"x24" xH 28")

Fill up with 100% cement.

Note: Before putting the in-ground base down, make sure that it's horizontal to the ground. The gazebo can only be installed after the concrete has completely solidified.

We recommend that before installing the 2 in-ground bases, you first assemble the 2 rear poles and the rear crossbeam. This will help determine the installation position and dimensions of the in-ground bases more accurately.

39# 1X

After the concrete has completely solidified, loosen the washers and nuts on the bases to assemble the rear poles (see the next page).

Note the inclination angles of the two rear poles during installation. You can first fit the base cover #B3 over #B2 (see the next page).

Support Tube Assembly

Note: The expansion screws in the picture are mainly used for fixing on concrete ground. In this scenario, fixing holes need to be drilled in the ground. If it is grassland, you need to dig holes and make concrete in-ground base to assemble the support tube bases.

You can first install the 2 front support tubes to determine the position of the bases #G4. See the next page.

Assemble the front support tubes.

Step 1: Insert the top of the front support tube into the circular opening of #G3, then slide it inward to secure the top part of the tube.

Step 2: Align the semicircular base at the bottom of the tube exactly with the semicircular opening of #G4.

Step 3: Rotate the tube to snap the semicircular base at its bottom into #G4, completing the fixation of the support tube.

Care and Cleaning

Wash frame parts with mild soap and water, rinse thoroughly.

Dry frame completely and allow the fabric to drip dry.

Do not use bleach, acid, or other solvents on frame parts.

Please inspect and tighten all bolts or fasteners on a regular basis to ensure proper performance and safety of your gazebo.

Warranty

Frames

Frames constructions are warranted to be free from defects in material and workmanship for 1 year from item purchased. Damage to frame from negligence won't be covered by this warranty.

Bolts & nuts

Bolts and nuts are warranted to be free from defects in material and workmanship for 1 year from item purchased. Damage from exposure to chemicals (including not only oils ,spills, fluids) won't be covered by this warranty.

Warranty Limitation

This warranty is for the original purchase order only. (Order number required). This warranty is non-transferable. Domi outdoor living is responsible for the free replacement part including shipping charges for the 1 year warranty.

Warranty Exclusion

This warranty does not cover products subject to negligence, abuse usage, inappropriate installation. Domi outdoor living reserves the right to explain warranty exclusions. When the replacement item is applied, the 1 year warranty automatically expires. Please feel free to contact us for applying warranty.
