PACKAGE CONTENT

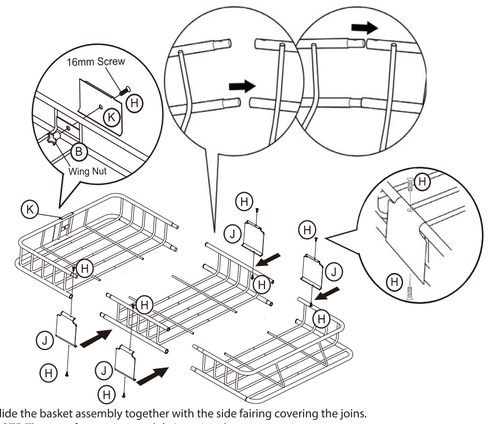

ASSEMBLY INSTRUCTION (BASKET INSTALLATION)

1

- Assembly the extension module by inserting the left piece to the right.

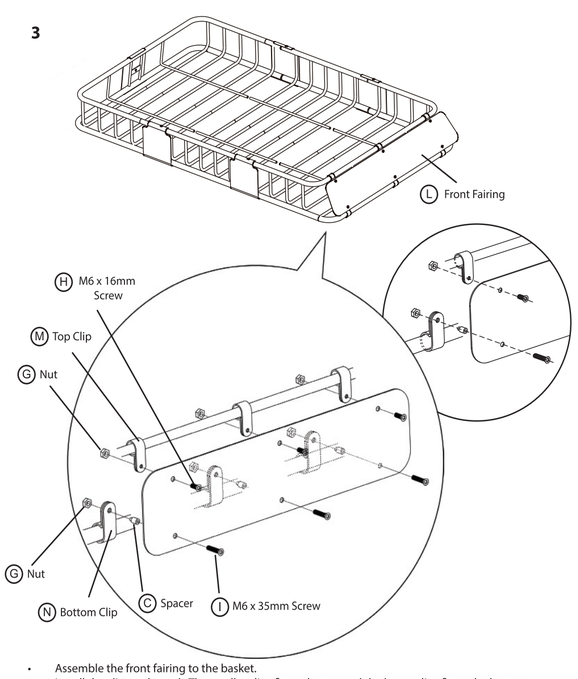

2

- Slide the basket assembly together with the side fairing covering the joins.
  NOTE: The use of extension module is optional.
- Secure the assembly using the provided M6 x 16mm screws through the side fairing to the basket frame.
- Attach the back fairing to the back of the rack.

ASSEMBLY INSTRUCTION

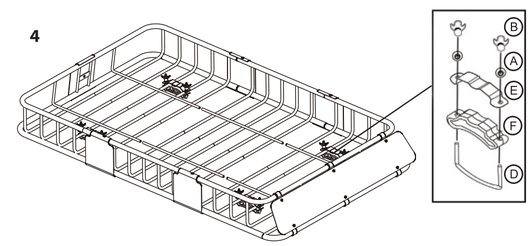

3

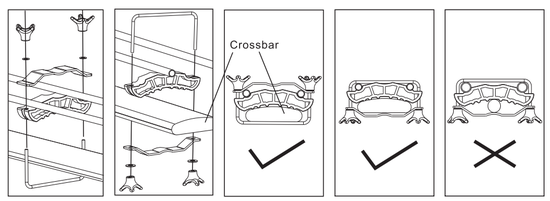

- Assemble the front fairing to the basket.
- Install the clip on the rack. The smaller clips fit on the top and the larger clips fit on the bottom.
- Secure the fairing by using 16mm screws through the top clip and the longer 35mm screws through the bottom clips.

ASSEMBLY INSTRUCTION (INSTALL THE RACK ON YOUR VEHICLE)

4

- The rack can only be installed on vehicles with mounting rail and crossbar.
  NOTE: Check with your vehicle dealership for compatible mounting rail if necessary.
- Position the saddle away from the center of the rack for even weight distribution. Align them to the crossbar on your vehicle.
  NOTE: Relocate the crossbar on the mounting rail if necessary. The 2 crossbars need to be at least 15° apart from each other.
- Clamp and secure the rack on the crossbar by tightening the wing nuts on the saddle.

ATTENTION: Load evenly and fasten items with straps.(Straps are purchased separately)
