

SYNERGY SERIES

Visual synergy inspires
imagination and makes
workspaces more
functional, integrated,
and engaging

SYNERGY SERIES

CHAIRS & STOOLS

A seating series designed for
comfort and flexibility

SYNERGY SERIES seating is designed to complement the aesthetic of all furniture in the series. With an ergonomic shell and reinforced frame, SYNERGY SERIES seating provides comfort, back support and encourages correct posture. Our chairs and stools are flexible yet strong and designed to withstand frequent handling.

SYNERGY CHAIRS

The reinforced metal brackets improve stability and strength. Chairs can safely stack up to six high.

SYNERGY SERIES

DESKS & TABLES

Workspace comfort with functional design

SYNERGY SERIES Desks & Tables are highly versatile and ergonomically designed. They work together seamlessly to provide multiple flexible configurations for a more collaborative learning environment.

Find creative ways to reconfigure a space and maximize the footprint with a variety of layout options suitable for individual learning or group activities. Mix or match from a variety of laminate colors and edgeband options to create a unique space that nurtures creative thinking.

SYNERGY SERIES work surfaces include: Thermally Fused Laminate (TFL), High Pressure Laminate (HPL) and White Dry Erase.

Quality Learning Environments since 1954

A Long-Standing Tradition

In 1954, Abner E. Jackson formed our company to provide the market products built utilizing the highest quality materials and craftsmanship available. From our selection of the finest raw materials to the individual design and handcrafting of each product, Tesco Learning Environments is committed to making our furniture last a lifetime.

Advanced Technology

Tesco continues our commitment to remain on the cutting edge and is proud to be among the first manufacturers in our market to employ a state-of-the-art UV cured finishing system.

Commitment to Service

Tesco realizes we must exceed our customer's service expectations with regards to on-time deliveries, design assistance, and production drawings.

Creative Solutions

Tesco encourages creativity and customization in every manufactured product. We don't believe any learning environment should be limited to standard dimensions or basic designs.
