| Tools |  | |  | |  | |  | |
| | M6*55mm | 4*4 | M6*75mm | 4*4 | E | 4*4 | F | 8*4 |
| |  | |  | | | | | |
| | Wrench | | Hexwrench | | | | | |

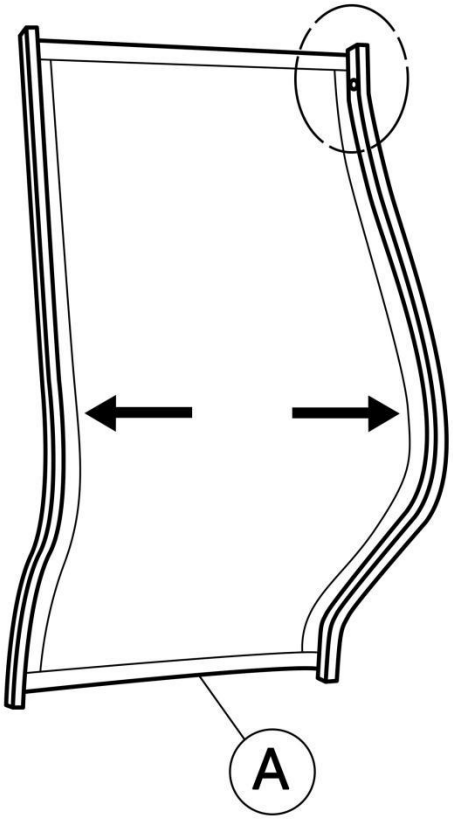

Tips: Confirm all components are present before installation

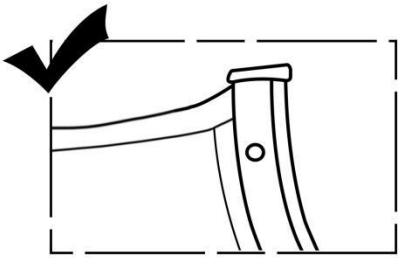

**Step 1: Unfold the Backrest**

Unfold Part (A).

The **side with stitching** is the **back side** of the chair.

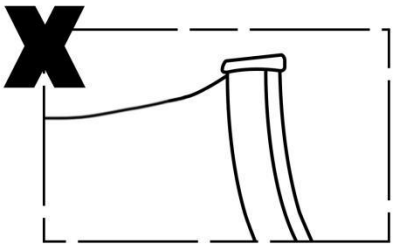

Make sure it faces the correct direction.

**Correct version**

The holes are facing inward

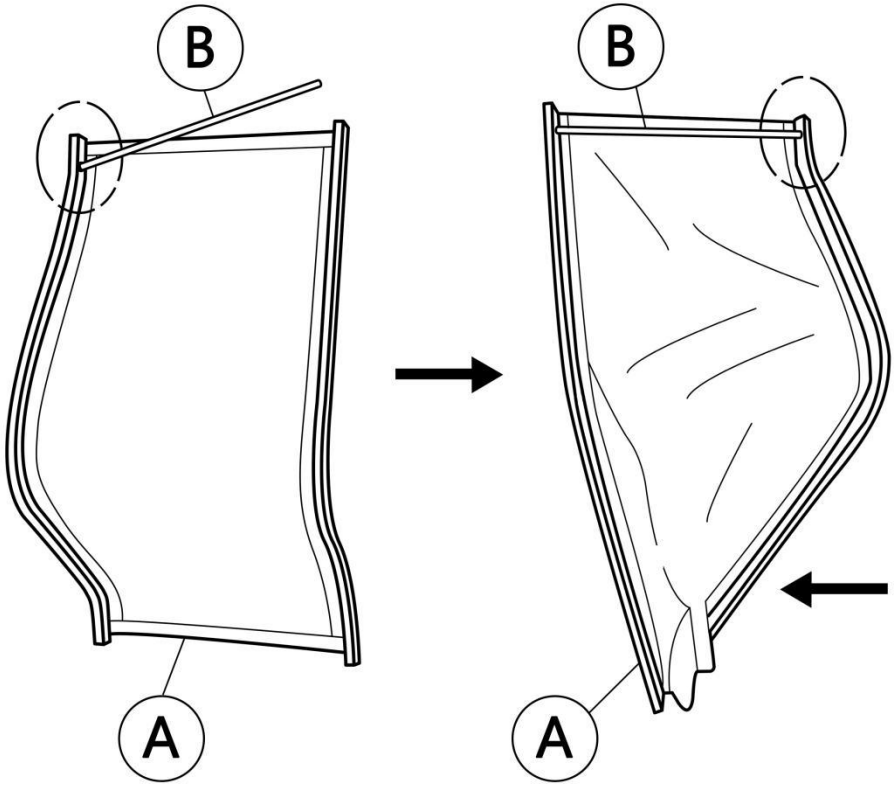

**Wrong version**

The holes are facing outward

**Step 2: Install the Cross Bar**

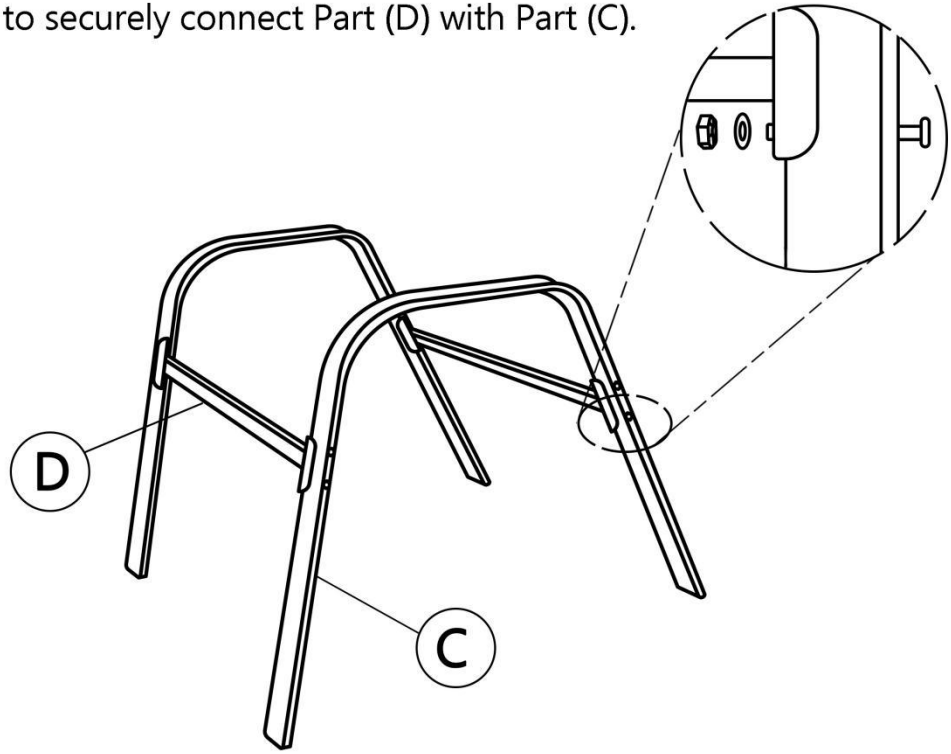

Insert one end of Part (B) into one hole of Part (A).

Press the lower part of the backrest to insert the other end.

**Step 3: Connect the Leg Support**

Use 4 screws (M6×55mm)
to securely connect Part (D) with Part (C).

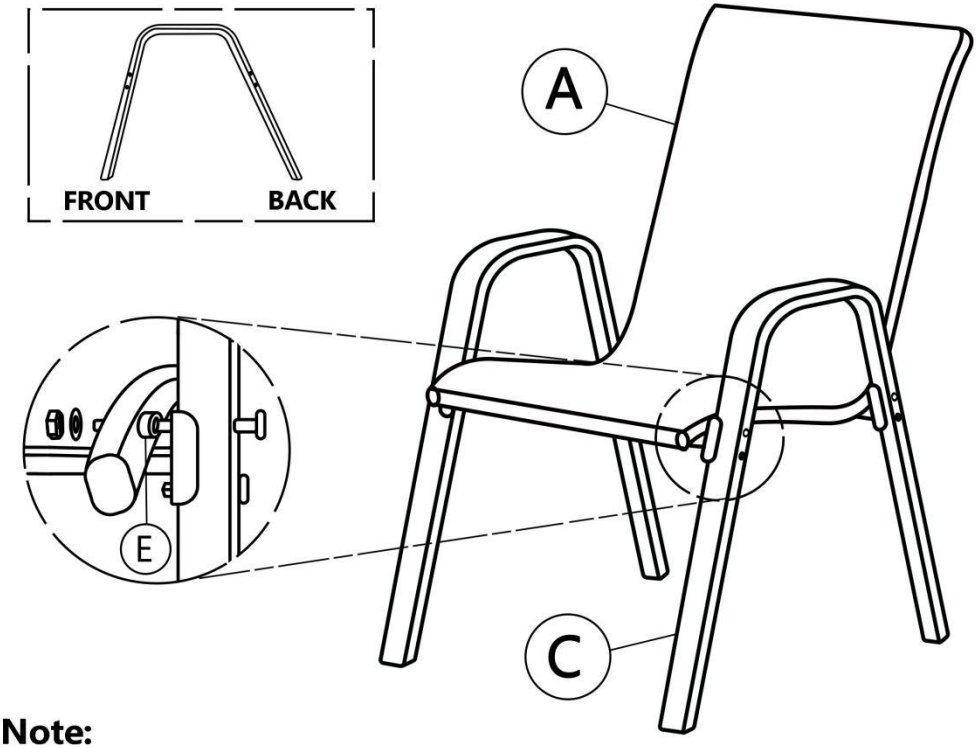

**Note:**

M6×55mm screws go into the lower holes of the legs.
After all parts are assembled, tighten the screws.

**Step 4: Attach the Chair Legs to the Seat**

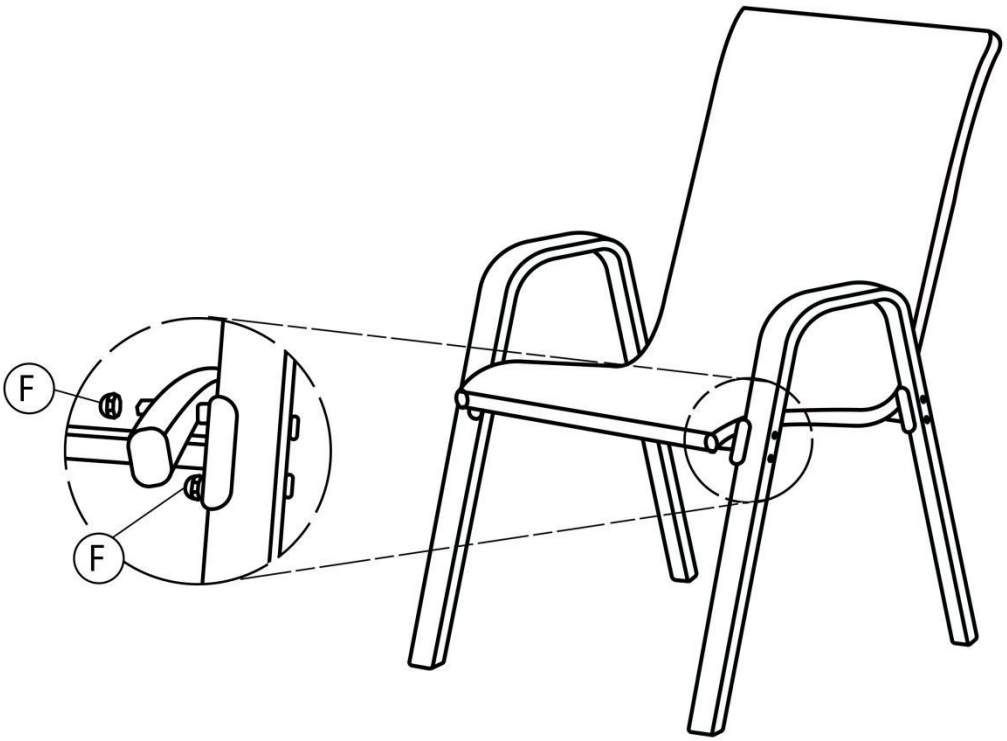

Use 4 screws (M6×75mm) and 4 Part (E)
to firmly attach Part (A) to Part (C).

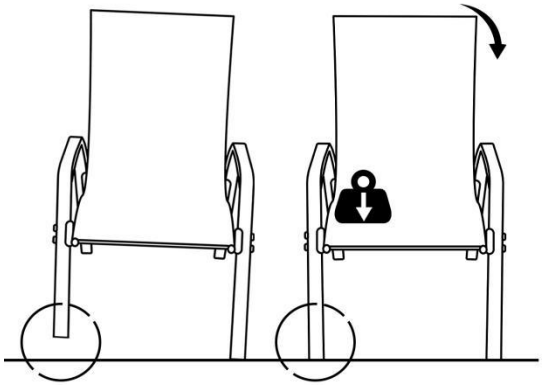

**Note:**

M6×75mm screws go into the upper holes of the legs.
After all parts are assembled, tighten the screws.

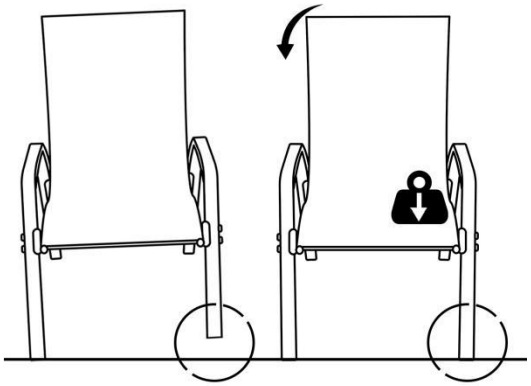

**Step 5: Install the Screw Covers**
Place Part (F) over each screw head to prevent scratches.

**When Left Leg is Lifted**

**When Right Leg is Lifted**

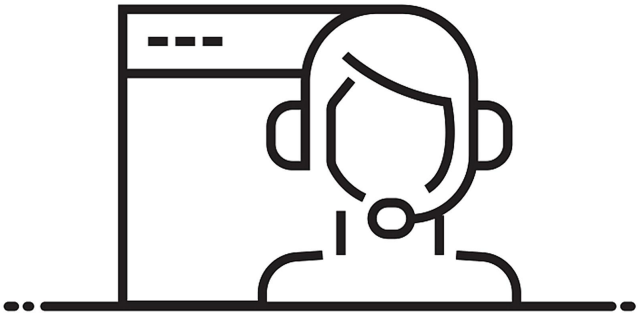

In rare cases, inaccurate screw tightening may cause the chair's legs to be uneven.

**Solution:**

1-Keep the other three legs flat and press down on the lifted side of the seat with your knee.

2-At the same time, pull the opposite backrest inward to realign the frame.
