

FRAMED FLOATING CANVAS

Our premium hand stretched canvas is mounted securely by hand into a sturdy 1.5" box frame. The museum style gap between wrapped canvas and box frame gives the illusion of floating artwork.

STRETCHED CANVAS

Our stretched canvas are created with only the highest standards. We use quality inks and canvas, along with our in-house Mimaki printers. Each piece of art is hand cut and stretched over a 1.5 inch thick wood frame for hanging.

WOOD PLAQUES

Our wood plaques start off as high quality lithograph prints that are mounted on durable 0.5 inch thick MDF wood. Each piece is hand finished and comes with a fresh layer of foil on the sides to give it a crisp clean look.

FRAMED GICLEE

Our giclee prints are carefully mounted on durable wood backing, and perfectly finished in a 1.5 inch thick woodgrain frame. Frame colors include black, farmhouse gray and white.

All art arrives ready to hang.
