Roller Shades – Outside Mount – Standard – No Fascia Installation Instructions

1 Mark bracket location

Items Needed:

Pencil
Brackets

Hold the shade in your desired location and mark each edge of the shade on both sides. This is your first mark for each side.

Measure and mark 1/8" past each mark. This is your second mark for each side.

Hold one bracket on the left side, (Brackets are in the vertical position in Figure A), with the outside edge on your second mark, and mark both holes with your pencil. Repeat on the other side. Ensure the marks on each side are level with each other.

*Clutch and idle end locations could be reversed depending on options ordered

2 Drill holes

Items Needed:

Drill
Drill bit

Using the holes you marked in Step 1, drill each hole.

3 Screw in brackets

Items Needed:

Brackets
Screws
*Anchors for drywall, aluminum or concrete installs, not included with blinds

Screw each bracket into the holes you drilled in Step 2.

4 Mount shade in brackets

Items Needed:

Shade

Ensuring shade is completely rolled up, insert the side with the clutch into the bracket ensuring the fabric direction (typically rolls behind the shade) and chain location (typically on the right) are correct. If not reverse the shade.

Push the other side, the idle end, of the shade up and into the other bracket.

*Clutch and idle end locations could be reversed depending on options ordered

5 Install the chain guide

Items Needed:

Chain guide

Screw

Insert the chain into the chain guide clip.

Position the chain guide, allowing for some slack in the chain, and attach with a screw through the hole in the bottom center.

6 Confirm roller shade operation

Raise the shade all the way up and lower the shade all the way down.

Raise the shade to a center position to ensure it locks in place and lower the shade all the way down.
