Floor Coverings with Flair

Exclusive Designs by Victoria Bright

Unique, Custom Designs

Our new Vinyl Floor Covering collection is designed exclusively by Victoria Mlady, of Albuquerque, NM. Together, our mission is to brighten your indoor and outdoor living spaces because color is good for you!

Our substrate is a 2-ply vinyl with latex backing. We manufacture them with plastic colors designed specifically for our vinyl so they do not wash off or fade.

- Durable, commercial grade
- Easy-to-clean, stain resistant, water resistant, hygienic, hypoallergenic
- Non-slip, lays flat on all hard surfaces (not recommended for use on top of carpet), corners do not curl
- Indoor/Controlled Outdoor (preferably used under covered porches or decks for increased life-span)

Care Instructions

Our Vinyl is simple to clean. Dust mop the floor covering to ensure all loose dirt and/or grit is removed. Wipe down with a damp cloth. Do not use dish soap, harsh chemicals or abrasives as these will wear off the finish and colors of the Vinyl.

Our Vinyl is durable in high traffic areas, but it is not indestructible. Use reasonable caution and care on this product. Do not drag metal or furniture across the surface. We highly suggest applying felt pads to the bottoms of furniture legs.

If you are installing over stained concrete or treated surfaces, make sure the surface is properly cured before installation. When your Vinyl gets wet due to rain be sure to periodically flip over to dry and prevent mildew. Please note, we do not recommend this Vinyl for poolside use.
