Codes of the Mystics 1

D65S1295-434

Codes of the Mystics I is an expressive and emotive work in keeping with the Lyrical Abstraction Movement of the mid-20th century. The marks, imbued with a sense of fluidity and movement, function as both abstract forms and are suggestive of written expression. The color scheme is understated in hues of dove grey, sand, mustard, and cerulean.

An air of mystery is created through ethereal forms and perceived scrawlings in this original piece for the exclusive ART by TA Collection.
