Product Name: POWER ADAPTER

Model: CT-11

"This device complies with Part 15 of the FCC Rules.

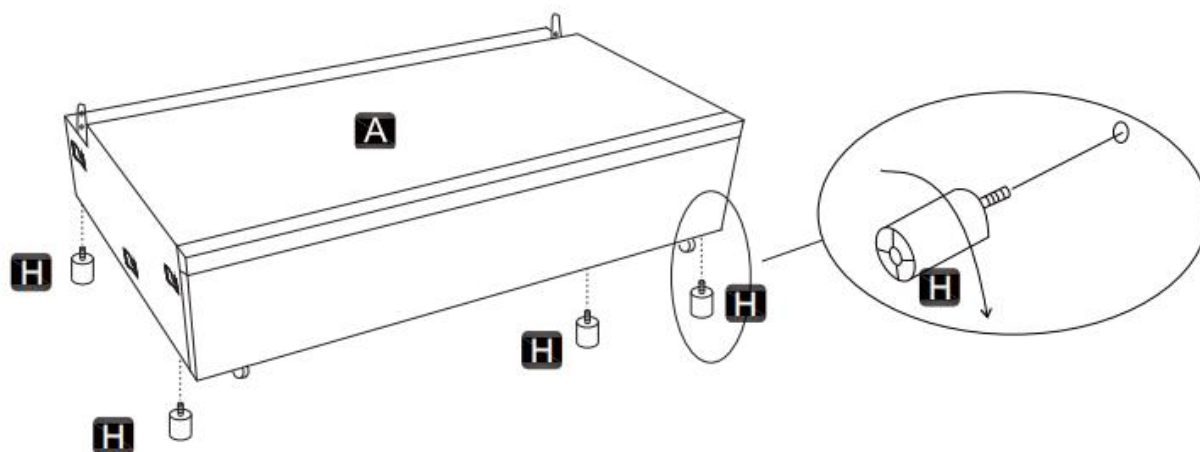

Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation."

Overview

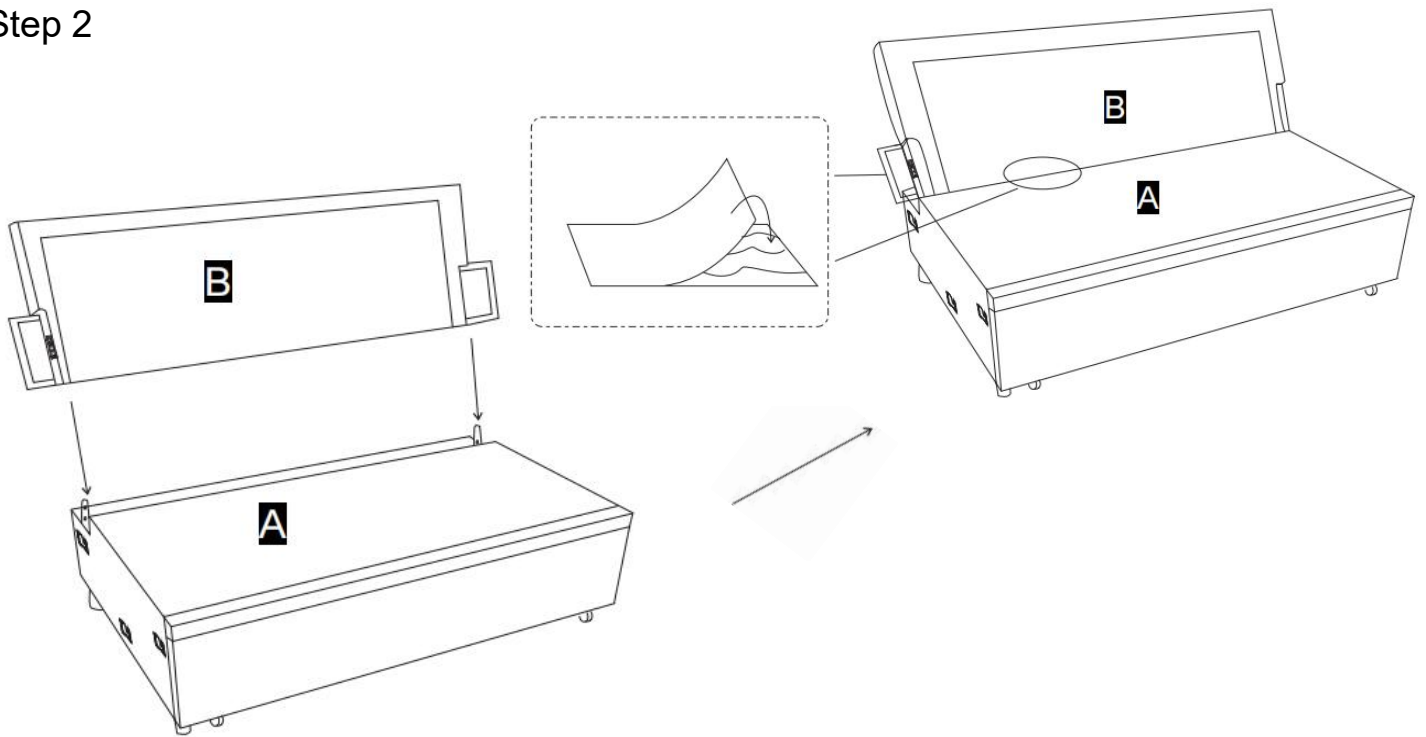

This Pulling machine is composed of multiple parts, and assembly may take up to 20 minutes. To help you get an overall understanding of the bed's various components, the image above can assist you in connecting different bed parts. Before assembling, please carefully read the following instructions to familiarize yourself with each component and the steps.

Step 1

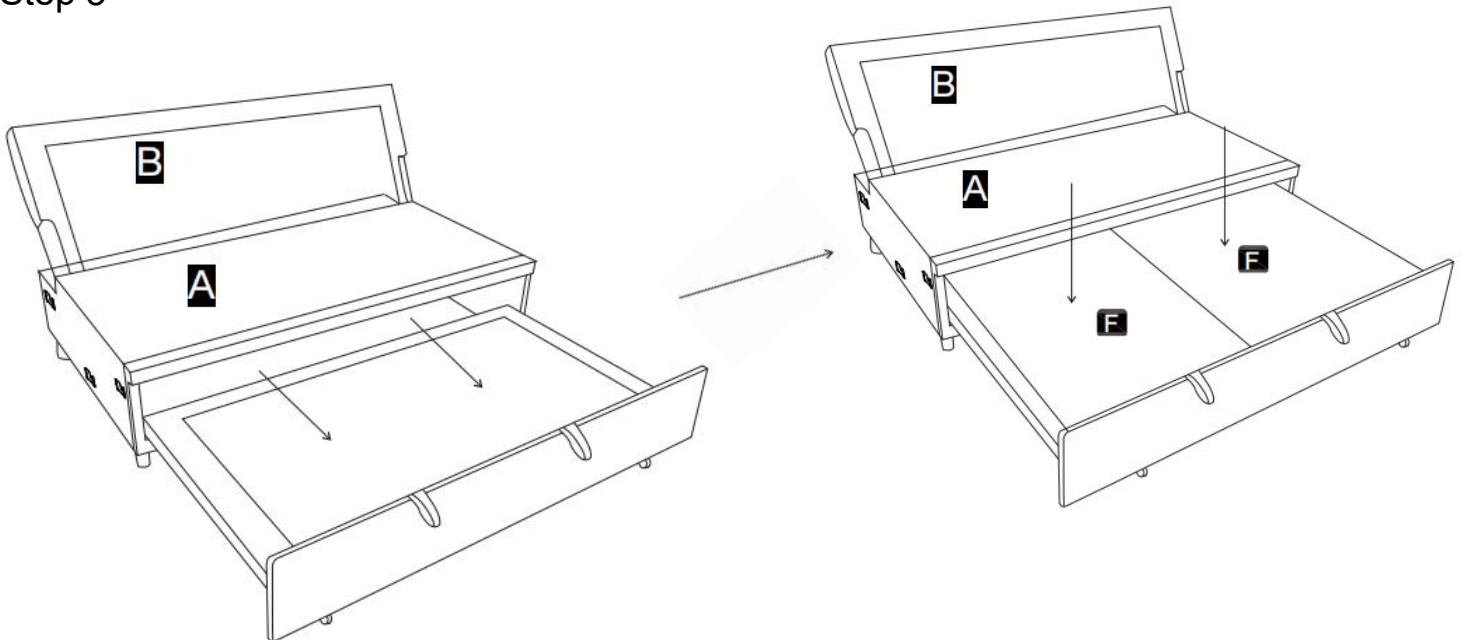

Install the plastic foot (H) to the bottom of the bracket (A), and make sure to tighten it securely.

Step 2

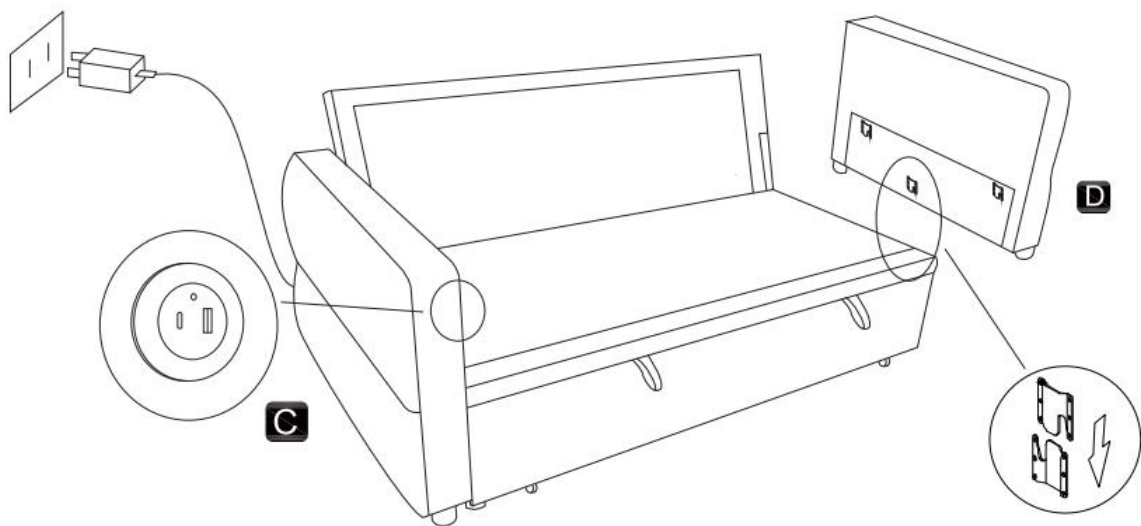

Install the backrest (B) to the frame (A), and adhere the Shade cloth at the hardware position of the backrest. Also, adhere the connecting fabric at the middle connection area.

Step 3

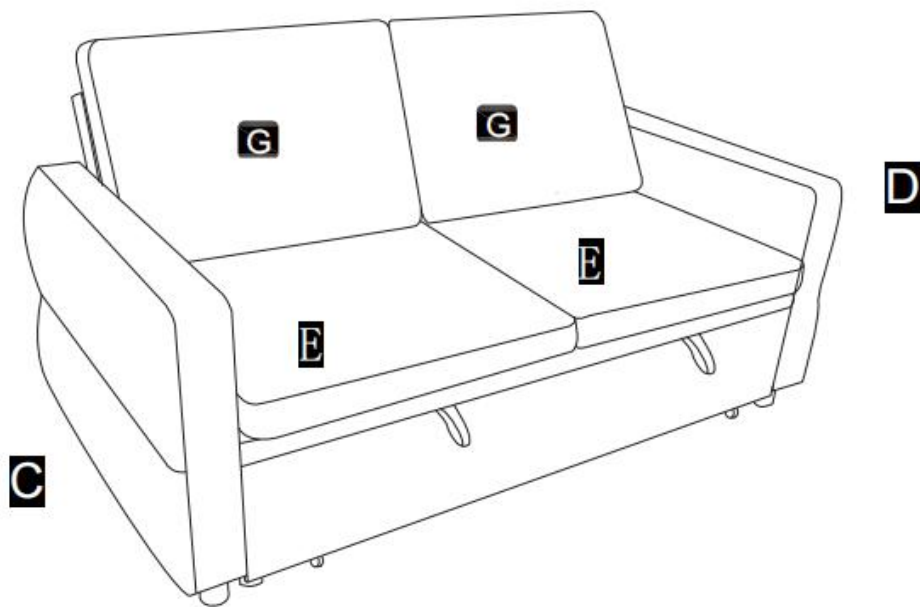

Pull out the puller base (A) below, and stick the puller seat cover (F) flat against the front panel. Make sure the puller seat cover (F) is centered and restore the position

Step 4

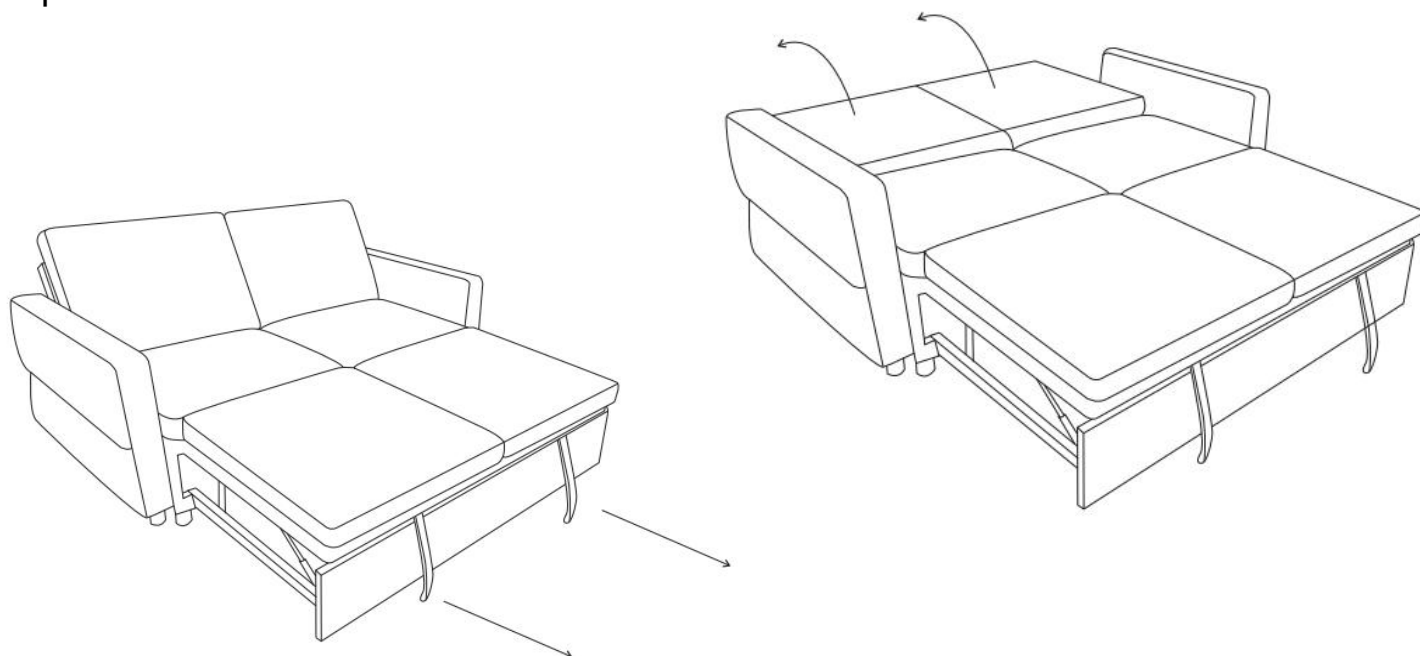

Install the left armrest (C) and the right armrest (D) on both sides of the seat frame. Note: The left armrest (C) has a USB port.

Step 5

Attach the seat cushion (E) and backrest (G) to the seat frame (A) and backrest frame (B), making sure to center them properly.

Step 6

Your Pulling machine is ready for use.

Note: After assembly and before using the bed, inspect to make sure all parts are properly connected and securely fastened.
