

# Outdoor Furniture

## IMPORTANT

If you have any problems with this product (missing or damaged parts, assembly issues, etc.),

**PLEASE DO NOT RETURN TO THE RETAILER/STORE**

from where you purchased the product.

To expedite any future warranty claims, please retain the Instruction Sheet, Warranty Card and receipt for future use.

### **Care and Maintenance**

Store furniture in an upright position. Be careful to never allow water to build up in frames as this will cause corrosion and freeze damage in cold climates. Wash all frames with a solution of mild soap and water. Rinse with clean water and dry with a soft absorbent cloth towel. Frames can be treated with a liquid wax for maximum protection against UV rays and/or salty, damp air. If your set includes cushions, slings, and/or an umbrella they may be cleaned by hand with a solution of soap and water with a clean water rinse. (Never machine wash cushions, slings or umbrella covers as this will result in shrinkage or damage). After cleaning cushions tip on end and allow to drip dry. (Never use a commercial or home dryer to tumble dry fabric goods). Do not use bleach or solvents to clean any product! This will void the warranty.

Limited Warranty

# Care & Maintenance

*Outdoor furniture can be enjoyed for many years when well maintained.*

## **Regular Maintenance**

Wash the furniture with a solution of mild detergent and water, rinse with clear water, and dry thoroughly. To all metal frames, apply a fine, clear automobile wax for maximum protection against harmful ultraviolet exposure and salt air.

For best protection, perform this maintenance two or three times per year in low pollution areas or more frequently in high pollution areas. Please note that these durable materials can be safely cleaned as often as desired. Note: Some suntan and sun block products may be harmful to resin, cushions and strap, mesh and vinyl lace and strap. Do not allow such products to come in contact with any seating surfaces to avoid deep penetrating stains, which are not covered under warranty.

## **How to Clean & Care for Teak Furnishings**

Left alone to age, the natural color of teak furnishings will weather to a soft, silver grey. This process will take approximately nine months, depending on the degree of sunlight and rain exposure. Imperfections, which are inherent properties of the wood, will show over time, enhancing the beauty of the furniture. In humid or wet climates, or after rains, the wood may naturally expand and contract, causing the grain to rise. This is to be expected with exposure to the elements and will stabilize after the initial weathering occurs. To maintain teak furnishings, use a soft bristled utility brush and stroke lightly in the direction of the grain to remove surface dust. For more stubborn dirt, the wood may be washed with a mild solution of four parts laundry detergent or dish washing soap to one part bleach in water, then rinsed thoroughly and allowed to dry completely. Oiling the wood may cause mildew or irregular coloring.

## **How to Clean Woven Furnishings**

Woven furnishings are made of durable and weatherproof extruded polyethylene resin weave. Light stains and soils may be removed with a solution of mild detergent and water, rinsed with clear water and dried thoroughly. Mildew and heavy stains can be removed with a quality commercial outdoor furniture cleaner and protectant. Woven furnishings may not be suitable for intensely hot climates.

## **How to Clean Fabric**

Fine outdoor fabrics are designed to endure years of sun, soil and moisture. Wash outdoor cushions with a solution of mild detergent and water and thoroughly rinse with clear water. Stand cushions on end and allow to air dry completely. Light stains can be removed as above. Mildew and heavy stains can be removed with a quality commercial outdoor furniture cleaner and protectant. Note: Do not dry clean or use a washing machine or dryer. Do not steam or use water at temperatures above 100° F when washing. Note: Be careful to keep the outdoor furniture cleaner from contact with the cushions of your outdoor furniture, as it will cause discoloration. Do not use bleach on printed acrylic fabrics. Do not use solvent-type materials on woven vinyl, woven blend or ultra woven blend fabrics as they will damage the yarns. Do not use chlorine based cleaners.

## **How to Clean Mesh**

Remove light stains with a solution of mild detergent and water, then rinse with clear water and dry thoroughly. Mildew and heavy stains can be removed with a quality commercial outdoor furniture cleaner and protectant.

## **How to Clean Strap**

For general or light cleaning, begin by brushing dirt off the strap. Apply a solution of mild detergent and warm water and allow it to soak into the strap. Gently clean with a sponge or soft bristle brush, then rinse thoroughly with clear water and allow the strap to air dry.

## **How to Clean Vinyl Strap**

Apply a quality vinyl protectant to guard against the effects of air pollution, salt air build-up, and mildew. To remove difficult stains use rubbing alcohol applied with a soft cloth.

## **How to Clean & Care for Stone and Marble Tops**

Tabletops are designed for normal outdoor use in residential settings. To maintain the natural beauty we recommend resealing your table top when necessary, with the same sealer product applied during the manufacturing process. The sealer penetrates the stone and acts as a repellent, preventing absorption of moisture and stainable materials.

If tabletop is stained with products such as wine, soda, coffee, or other colorants of organic origin, clean these spills immediately with a mild detergent then rinse with water. In extreme cold climates, it is recommended that tabletops be stored in a dry indoor area or be covered with suitable outdoor furniture cover. Be sure to allow space between the tabletop and the cover so that moisture does not collect on the table; this will promote airflow and allow moisture to escape.

# ASSEMBLY INSTRUCTIONS

- 1 Place the table top upside down on a flat, non-abrasive surface. Attach the table leg to the table top by using the bolts and washers as shown in the **Fig.1**. Guide the bolts through the holes in the table leg, and into the predrilled holes in the table top. **Hand tighten only**. Repeat for the other three legs.

**Fig.1**

- 2 Attach a leg to the leg connector bracket by carefully guiding the bolts already in place on the table legs (each leg has two bolts) through the holes in the leg connector bracket. Add a washer and a nut to the end of each bolt as shown in the **Fig.2**. **Hand tighten only**. Repeat on the other three legs.

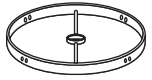

**Fig.2**

- 3 After making any necessary adjustments to the alignment of the table legs and the leg connector bracket, use the hex bolt driver and hex wrench to tighten all nuts and bolts. **Note:** each bolt and nut must be tightened a few revolutions at a time. In order to apply equal pressure to all bolt joints, we recommend working in a cross corner (X fashion). Repeat until all bolts are tight. **Do not over tighten**. Over tightening may strip bolts. Cover all nuts and bolts with covers.

## PARTS IDENTIFICATION LIST

\* NOTE: PARTS SHOWN ON PARTS LIST ARE NOT TO SCALE

	<u>PARTS LIST</u>	<u>DESCRIPTION</u>	<u>ORDER PART #</u>	<u>QTY</u>
A		TABLE TOP		1
B		LEG CONNECTOR BRACKET		1
C		TABLE LEG		4
D		1/4" X 18 MM BOLT		8
E		1/4" NUT		8
F		Ø6.5 X 1.0 MM WASHER		16
G		BOLT COVER		8
H		NUT COVER		8
I		HEX WRENCH		1
J		HEX BOLT DRIVER		1
		UMBRELLA HOLE RING (SET) <i>FACTORY ASSEMBLY</i>		
		UMBRELLA POLE STOPPER & NUT <i>FACTORY ASSEMBLY</i>		
		FOOT CAP <i>FACTORY ASSEMBLY</i>		

# ASSEMBLY INSTRUCTIONS

**1** **Important: We recommend 2 people work together to assemble the chair.** Note the arrow labels on the "U" bar and the rocker assembly. Also note the horseshoe shape of the rocker plate. Point the open end of the horseshoe away from you. The arrows on the rocker assembly should be pointing towards you. Set the chair frame on the rocker assembly with front of the seat facing you and the arrows on the "U" bar pointing towards you as shown in **Figure 1**. This is very important for a safe, balanced rocking motion. **If chair frame has been properly positioned on the rocker assembly, all arrows on the "U" bar and rocker assembly will be pointing in the same direction.**

**2** **Critical Step: The "U" metal plates must be installed in the proper location.** Read this step and carefully examine. Insert the "U" metal plate, so that the "U" bar and rocker plate are between both sides of the "U" metal plate. Make sure that the holes in the "U" metal plate are completely aligned with the holes in the "U" bar as shown in **Figure 1**. Guide the bolts through the holes on the top side of the "U" metal plate, through the holes in the "U" bar portion of the chair, through the holes in the rocker plate and then, most importantly, through the holes in the bottom side of the "U" metal plate. It is very important that the holes in the bottom portion of the "U" metal plate be placed directly beneath the holes in the rocker plate. Add a spring washer and a nut to each bolt as shown in **Figure 2**. **Hand tighten nuts 3-4 revolutions only.** Repeat the same procedure on the other side.

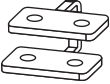

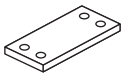

**CAUTION: Failure to place "U" metal plates under the rocker plates and above the "U" bar exactly as shown in diagram will cause the bolt heads and nuts to damage the structure of the rocker plates and the "U" bar. Damage due to over tightening of bolts or improper assembly could cause injury and may void your warranty.**

**3** Tighten all nuts and bolts with the hex wrenches provided. **Ensure the bolts are FULLY tightened.** Remove arrow labels from "U" bar and rocker assembly. Cover bolts with bolt covers.
